PRICE FIVE CENTS

FARMERS ASK SAANICH BE SPLIT IN TWO

C.P.R. and C.N.R. Join Province In Survey of P.G.E.

Government Plans Complete Investigation Into Areas Tributary to Railway, Premier Announces in First Speech; Hopes B.C. Line Will Be Big Factor in Northern Development; Civil Service to Be Re-graded by Committee This Year; Propose Encouragement to Steel Industry and Coast Smelter

The British Columbia Government, the Canadian Pacific Railway and the Canadian National Railways will co-operate in a joint investigation of the resources of the country tributary to the Pacific Great Eastern Railway as the first step in the solution of this Province's railway problem.

This was the key announcement in Premier Tolmie's speech in the Legislature yesterday, the first he has delivered there as head of the Government.

The cost of the survey will be shared by the three parties to it, and there is no obligation on the part of the Province to sell the railway to either of the transcontinental systems, the Premier said. He added that the Government had received several inquiries about the possibility of purchasing the road, but the results of these proposals could not be gauged yet.

The chief policies of the Government as outlined by the Premier were:

Regrading of the civil service from top to bottom and a revision of salaries based on the importance of duties performed.

Encouragement of a steel industry and a smelter on the coast.

Construction of a new building at Esquimalt Mental Home to accommodate returned soldiers.

Settlement of the Sumas reclamation area as rapidly as possible, with the sale of Government land at prices under which farming can be carried on economically.

Commencement of a comprehensive road programme this year and special attention to the needs of the Peace River district.

P.G.E. GRADES

Coming to a discussion of the P.G.E. activities, the Premier gave an exhaustive review of the history of the undertaking, pointing out that the grades on the line were better than those on the C.P.R. during its early progress.

"The more one studies the Pacific Great Eastern Railway, the more one appreciates its value to the future development of the Province," he said. "While we have been accustomed to listen to wise opinions on the road's unfitness for freight traffic on account of its grades, we find that these do not compare unfavorably with the grades of other railways. I think it is safe to say that few new roads in a mountainous country have the advantages of this road. I think you will agree with me, Mr. Speaker, when I say that the Pacific Great Eastern is a new line at as low a cost as possible at first, and then, as business is built up, the road is improved in proportion. In this way the Pacific Great Eastern is capable of much improvement as business develops. In fact, it is surprising to learn that the C.P.R. was not nearly so well favored with regard to grades when the line was first built as the P.G.E. is to-day. The highest point on the P.G.E. is 1,462 feet lower than the highest summit on the Canadian Pacific Railway. And we must remember that four per cent grades existed in the early days of the C.P.R., as compared with 2.2 per cent grades on the P.G.E. now."

VENICE MAY TURN TO ICEBOATS FROM ITS OLD GONDOLAS

Rome, Feb. 5.—Iceboats and skis may be necessary to replace the gondolas in Venice if the weather in that Italian city does not moderate soon. Ice has clogged the canals and lagoons which serve Venice as streets and traffic there by means of gondolas has become most difficult. The temperature has been as low as 15.5 Fahrenheit.

HOBOES TO CHOOSE NEW KING AT LOS ANGELES YEAR HENCE

Winnipeg, Feb. 5.—An international convention of hoboies will be held at Pershing Square, Los Angeles, Cal., January 1, 1930, at which J. Leon Lazarowitz, of Brooklyn, N.Y., will reign as "King of the Hoboes," a title he has held since 1927. Just concluding a tour of Ontario, Lazarowitz, who prefers to be called "His Royal Highness," traveled to Winnipeg yesterday from Port William, Ont., on the tender of a fast passenger train, despite a biting wind and sub-zero temperature.

TO SERVE SENTENCE IN GEORGIA PRISON

CLINTON F. CARNES

Atlanta, Ga., Feb. 5.—Clinton F. Carnes, former treasurer of the Southern Baptist Home Mission Board, whose disappearance late last summer led to the discovery of an alleged shortage of nearly \$1,000,000 in his accounts and his subsequent arrest in Winnipeg, Man., pleaded guilty in superior court here to-day to embezzlement and was sentenced to from five to seven years' imprisonment.

PAUSE MADE IN PRAIRIE INQUIRY

Adjournment Granted By Manitoba Commission Investigating Campaign Funds

Winnipeg, Feb. 5.—Adjournment for one week of the Royal Commission inquiring into charges of "corrupt practices" against the Bracken Government was granted to-day following a plea by Hugh Phillips, K.C., counsel for Lieutenant Colonel P. C. Taylor, provincial Conservative leader.

The adjournment does not apply to the taking of evidence of P. Y. Newton, M.P.P. for Roblin, who has been subpoenaed to appear to-morrow morning.

As a result the commission delegated to investigate charges concerning the Government's relations with the Winnipeg Electric Company in the leasing of the Seven Sisters Falls, will meet again to-morrow morning to take Mr. Newton's evidence. When this has been completed, an adjournment until next Wednesday will be made.

The commission stated that "the adjournment was granted on the understanding of counsel that their respective clients who were members of the Legislature would not avail themselves of the privilege of the Legislature not to attend at the court of the commission."

Arthur Sullivan submitted his undertaking on behalf of Lieutenant Colonel Taylor, and Isaac Pittblado, K.C., assured the commission members of the Government would attend on request.

By order-in-counsel the commission was empowered to investigate specific charges made by Lieutenant Colonel Taylor, alleging the lease of the Seven Sisters Falls to the Winnipeg Electric Company was part of a "corrupt deal" in connection with campaign funds he claimed were contributed to the Bracken party.

Yeggs Routed From House By Unarmed Girl

Family Silver Saved But Vancouver Thugs Take Overcoat and Typewriter

Courage of Young Woman During Dark Hours Brings Aid and Safety

Vancouver, Feb. 5.—An unarmed girl played grim hide and seek with two burglars in the darkness of her stepfather's home on Granville Street here early this morning, but the intruders to flight and prevented them from taking valuable family silver. She was unable, however, to avert the theft of an overcoat, a pair of field glasses and a portable typewriter.

The girl, Miss Barbara Farley, told J. P. Langer, a relative, that at 4:30 a.m. she was awakened by an unusual sound. For some minutes she lay in bed listening intently, then, convinced there were prowlers in the house, she donned negligee and slippers and crept softly downstairs.

Her approach was discovered. The housebreakers hurried to the front, but Miss Farley blocked their exit by the door. They retreated to the rear. Miss Farley followed. She could not see them, but she could hear them knocking against the furniture.

INTRUDERS

This dangerous game was played for ten minutes before Miss Farley lost the trail. The prowlers found a place of concealment.

Running upstairs, the girl awakened Mr. and Mrs. Langer. While doors were being opened, and when the family came downstairs it was seen the burglars had escaped by the front and rear.

Langer called the police. He saw that almost every drawer in the chests and cupboards downstairs had been opened and ransacked. Bundles of silver and valuables were on the floor ready for removal. His writing desk had been forced open.

It is thought the burglars gained entrance to the basement early in the evening, and hid there till the family retired. There was no sign of a forced entry.

Will Resume Power Battle On Wednesday

Big Mining Companies Prepare to Lock Horns Before House Committee Here

The long battle between the Granby Mining, Smelting and Power Company and the West Kootenay Power and Light Company, associate of the Consolidated Mining and Smelting Company, over power rates and smelter charges will be resumed here to-morrow before the Private Bills Committee of the Legislature. In preparation for a lengthy argument, lawyers representing all interested parties assembled at the Parliament Buildings this morning.

The Private Bills Committee will have before it a bill sponsored by the West Kootenay Company and authorizing it to sell power to all its present customers, and not only in a limited area around Roseland where it is confined by recent decisions of the courts. The Granby Company, one of the West Kootenay Company's chief consumers, will object to the bill largely on the ground that while it extends the operating radius of the West Kootenay Company it does not obligate the company to supply power to consumers within reasonable distance of its power lines. The Granby Company also protests in a petition now before the House in the charges asked by the Consolidated company for smelting its ores at Trail. Objecting to these charges, the Granby company is smelting its ore in Tacoma.

Grand Forks city also will be represented before the Private Bills Committee to protest along the same lines as the Granby company.

'PERPETUAL STUDENT' DIES IN NEW YORK

New York, Feb. 5.—William Cullen Kemp, known as the "perpetual student" at Columbia University, died yesterday at the age of seventy-eight. He studied at the university for sixty years. During his years of study he acquired thirteen degrees.

HERE TO-DAY

HON. WILLIAM EGBERT
Lieutenant-Governor of Alberta, who arrived on this afternoon's boat from the mainland and is a guest at Government House during a brief stay in the city.

MCLEOD AGREES NOT TO PRACTICE HERE IN FUTURE

Charge Brought Against Accused By Medical Society Withdrawn To-day

Withdrawal of the case against James McLeod, charged with practicing medicine without being registered under the provisions of the Medical Act, was announced by counsel in Police Court this morning when the adjourned hearing came before Magistrate George Jay.

When the court opened, H. B. Robertson, K.C., appearing for the B.C. Medical Society, arose and informed the bench that an agreement satisfactory to his clients had been reached, and the case would be withdrawn on the understanding that the accused would no longer practice medicine here and would terminate his professional association with Dr. Ernest Hall. Such an undertaking had been given by the accused, and as this was satisfactory to the Medical Society the case would be dropped forthwith.

Harold Beckwith, appearing for the defence, concurred in the withdrawal of the charge.

COUNSEL COMPLIMENTED

Magistrate Jay complimented counsel on reaching such an arrangement, which he considered most commendable.

"I consider it is the proper course," commented Magistrate Jay in dismissing the case.

Considerable interest has been attached to the McLeod case in view of the prominence of principals heard during the preliminary hearings.

to-day brought the case to a rather dramatic close.

NO EMBARGO ON LOGS PLANNED, TOLMIE STATES

Government Will Not Allow Material to Go to Waste Here, He Says

An embargo on the export of raw logs from British Columbia has never formed a part of the Conservative Party platform and is not the programme of the Provincial Government, Premier Tolmie declared in the Legislature yesterday.

His announcement on log exports, which caused surprise because it contradicted flatly the utterances of many of his chief followers was made in the course of his address in the debate on the Throne Speech.

The idea of a complete log export embargo, Dr. Tolmie said, had never been voiced by him.

"We have adopted as one of our principles the encouragement of the manufacture of raw products in this country wherever practicable," he said.

"In some cases, however, owing to market conditions it is not possible to manufacture our logs at home. I have always argued that it is better instead of leaving them to rot in the water to ship them out of the country. 'We don't propose to have raw logs or other material going to waste here when it can be shipped out and thus bring back good money to this Province.'"

APPEAL FAILS

Ottawa, Feb. 5.—The Supreme Court of Canada, in a judgment handed down here to-day, dismissed with costs the appeal in the case of the Northwestern Utilities Company versus the City of

Water Power Problems Need Wider Inquiry

Supreme Court of Canada Finds Federal-Provincial Field Most Complex

Unable to Answer Abstract Questions; Concrete Cases to Be Argued

Ottawa, Feb. 5.—The Supreme Court of Canada, in a decision handed down here to-day, calls attention to the difficulty, indeed the impracticability, of answering in a precise manner the questions on waterpower and navigation, involving Federal and Provincial rights, submitted to it. It does definitely declare the provinces have the title to use the beds of navigable rivers, but subject to the public right of navigation, and even there exception is made as regards special rights vested at Confederation or by subsequent legislation.

In order to settle the relative rights of the Federal and the Provincial Governments with regard to water powers made available by or in connection with works for improvement of navigation, the Federal Government submitted a series of ten questions to the Supreme Court.

Questions which are left unsettled are the Dominion's to use or occupy provincial navigable rivers without the consent of the province concerned or without compensation; the respective rights of the parties with regard to water powers created or made available by works for the improvement of navigation by the Dominion since Confederation; the rights with regard to water powers in boundary waters and the right of any Province to use and develop water powers within its boundaries, even though navigation is not prejudiced.

The court took the position that the questions submitted were too abstract to permit of more than indefinite answers. It will be necessary to submit concrete cases to clarify the situation.

The reasons for the findings of the court were written by Mr. Justice Duff and are unanimously concurred in by the other members of the court.

Foch Fails to Gain Strength

New Complications in Case Are Feared By Marshal's Physicians

Paris, Feb. 5.—Marshal Foch was able to get some sleep last night after an attack of indigestion had disturbed his earlier hours, his physicians, Dr. Daviener and Dr. Heitz-Boyer, said. The attack left the marshal tired and with an increased temperature. His general condition was described as stationary.

While the physicians were extremely guarded in their discussion of the case, it was learned early to-day that new kidney complications which might bring on a new crisis were feared. It was said another specialist might be called in during the day for consultation.

The day for a consultation this afternoon, in the hope the patient might be able to sleep more.

LOOKED AT MAPS

Shortly after the marshal awoke this morning he ordered certain maps from the geographic section of the War College brought to him. The physicians tried to dissuade him, but he was adamant.

When the maps arrived he spread them out on his bed and began working out some small problem of his own.

"It really rests me," he said. "The game did not last long, however, and he was content to sleep."

HAYWARD REFUSES TO RETRACT HIS HOUSE STATEMENT

Reginald Hayward, Conservative member of the Legislature for Victoria, declined to-day to withdraw his recent statements in the House about the alleged dispatch of a cheque from the Public Works Department to Brenton Brown of Vancouver, in 1924. Mr. Brown denied Mr. Hayward's assertion that this cheque, covering a payment to a Government contractor, was sent to him, and his suggestion that the money never reached the contractor, but was used for Liberal Party campaign funds. Mr. Hayward said to-day he had facts to support his statements and could produce them at the proper time.

IS ARRESTED AT ULSTER BORDER

EAMONN DE VALERA

Belfast, Feb. 5.—Eamonn de Valera, Irish Republican leader, was arrested at Newry, on the Ulster border, to-day while attempting to enter Ulster in contravention of a long-standing order barring him.

Valera was going to Belfast to open a bazaar in disregard of the order barring him from Northern Ireland.

SUGGESTIONS OF MUNICIPALITIES BROUGHT FORWARD

Committee of Legislature Reviews Trail Recommendations

Hunter Bailot and Victoria Tax Plea Discussed

Recommendations of the Union of B.C. Municipalities for amendment of the Municipal Act and other acts covering the wide range of subjects discussed at the 1928 convention in September, were reviewed and spoken to before the municipal committee of the Legislature this morning and stood over for further consideration by the committee.

Alderman H. E. Bridgman North Vancouver, was spokesman for the delegation.

WOULD TAX CROWN LANDS

A proposal for taxation by the municipalities of the crown lands which have been leased for industries, was strongly advocated by North Vancouver representatives. That municipality found itself in the serious position, representatives pointed out, of finding practically its whole waterfront leased to industries by the harbor board.

The harbor board has acquired over a half million dollars worth of lands which they had leased to industrial concerns and the municipality was in the position of not being able to get a cent of taxes.

F.W. Molson Of Montreal Dies

Director of C.P.R. and Other Companies Succumbs at Sixty-nine

Montreal, Feb. 5.—Fred W. Molson, a director of Molson's Brewery, the Canadian Pacific Railway and the Bank of Montreal and a distinguished member of one of Montreal's oldest families, died here to-day at the age of sixty-nine.

He was taken suddenly ill last night. He was a son of the late William W. Molson and a cousin of Colonel Herbert Molson, president of the brewery firm of that name. His great-grandfather, John Molson, came to Canada in 1782 from Lincolnshire, England, and founded Molson's Brewery, as well as a foundry and a shipyard.

The late Fred W. Molson was president of Molson's Bank from 1922 until it was taken over by the Bank of Montreal several years ago. He is survived by a widow, three sons and two daughters.

RAILWAY AGENT DIES

Prince Rupert, Feb. 5.—R. B. Henderson, Canadian National Railway agent at Ust, dropped dead at his home shortly after having written a message. He had been in the service of the railway for eleven years. A widow and family survive him.

Secession Group Pleads "Cat and Dog Life" Exists

Petitioners in Wards Five and Six and Part of Ward Four Urge Fusion of Inner Wards With City, and Incorporation of Outer Wards in Wholly Rural Municipality; Secession Commissioner Hears of Quarrels

Incompatibility of rural and urban tastes, persistent squabbling over taxation matters, with every prospect of greater aggravation rather than less were cited as chief factors on behalf of the outer wards of Saanich, seeking a divorce by secession from the municipality, at the resumption of the special commission on the petitions of Wards Five, Six and part of Ward Four, before Judge P. L. Lammman, the commissioner, this morning.

C. H. O'Halloran, with A. J. Fattou, presenting the case of the secessionists, alleged a long continued discrimination by urban wards against their rural neighbors, unfair incidence of taxation, a period of illegal taxation, and other complaints which he said made secession the only solution in the best interests of the whole area.

FUSION WITH VICTORIA

The future of the inner wards, continued Mr. O'Halloran, would undoubtedly be fusion with the City of Victoria, one some basis that preserved equitable taxation in regard to past debts. The only future for the rural wards would be their organization into a complete rural municipality, with farming interests, and with assessment and taxation based on the actual productivity of the land, continued Mr. O'Halloran.

The present petition for secession contained 753 names, including owners of land valued at \$1,155,831, and worth \$2,500,000, with improvements, comprising the majority of the political owners in both Wards Five and Six, and the necessary quota required by statute in respect to the portion of Ward Four asking secession.

Taxation in Saanich had grown from five mills in 1907 to thirty mills in 1928, with the addition of a tax on fifteen per cent of improvements, continued Mr. O'Halloran.

(Concluded on page 3)

Senate Of U.S. Votes Bill For New Cruisers

Measure Provides For Building of Fifteen Fighting Craft and Plane Carrier

Vessels All to Be Laid Down Before July 1, 1931, Legislators Decide

Washington, Feb. 5.—The United States Senate to-day passed the bill authorizing the construction of fifteen cruisers and an aeroplane carrier.

Washington, Feb. 5 (By Francis G. Aldham, Staff Correspondent of the Canadian Press).—While the debate on the Cruiser Bill is drawing to a dull finish in the Senate, interest in Washington turns to the possibility of a last-minute change in policy in the White House regarding naval matters.

The bill now being pushed through the Senate under closure represents the policy of the Government nearly two years ago, modified by the House of Representatives, which passed it, nearly a year ago. Because the Senate strung out the debate and let other matters take precedence, it is still considering the bill within a few weeks of the date fixed by law for the end of this Congress.

COOLIDGE'S COURSE

Since the bill was framed the attitude of the Government at apparently has changed considerably. For instance, Mr. Coolidge has flung all reluctance to the winds in his efforts to convey to the Senate his desire that what is known as the time clause should be removed.

The clause specifies that the keels of the proposed fifteen cruisers should be laid within three years from a date in 1928. Mr. Coolidge says now that the exact period of construction should be left to the discretion of the Secretary of the navy.

All Lawyers To Be Commissioners Under Pooley Bill

Amendments to the Administration Act allowing the Government to appoint official administrators on fixed salary instead of on fees, as heretofore, were introduced into the Legislature Monday by Attorney-General Pooley. This will enable a fixed salary to be paid W. D. Carter, K.C., former Deputy Attorney-General, who was moved from that office to the position of official administrator in Vancouver after W. H. MacInnes had been dismissed.

A further amendment increased from \$250 to \$500 the size of estates which can be probated without payment of fees.

Mr. Pooley also introduced an amendment to the Evidence Act, creating all barristers and solicitors as commissioners for the taking of affidavits, a function to which ninety per cent of them, at least, have hitherto been appointed by special orders. Special appointments will no longer be required for members of the legal profession in order that they may attest affidavits.

Corns

Stop Hurting Instantly then Lift Right Off!

Drop "Freezone" on that aching corn. Instantly it stops hurting; then shortly you lift the corn right off with your fingers. You'll laugh, really! It is so easy and doesn't hurt one bit! Works like a charm, every time. A tiny bottle of "Freezone" costs only a few cents at any drug store, and is sufficient to remove every hard corn, soft corn, and callouses. Try it!

Local Firm To Drive Caissons For Hotel Wing

Kennedy, Leith Construction Company, local firm with offices at 319 Central Building, has been awarded a subcontract by Carter-Halls-Aldinger Company Limited, general contractors, for the sinking of seventy-foot caissons for the foundation of the new wing of the Empress Hotel.

The work involves the driving of 18,000 feet of Lackawanna steel sheet piling and the company will use a seven-ton steam hammer in the operation.

This part of the contract will take six weeks to complete with three shifts working day and night.

WRINCH OFFERS SUGGESTION ON SAVING SOCKEYE

Member For Skeena Tells of Experiments on Salmon Conservation

Restoration of the sockeye salmon run in Pacific Coast streams by blocking the entrance to the rivers and cutting out the destructive enemies of the young salmon was declared Monday in the Legislature by Dr. H. C. Wrinch, Skeena, to be a method the success of which had been proven by experiment.

Alex. S. Miller of Smithers made the experiments at Naket Inlet, southeast Alaska, beginning in 1893. Dr. Wrinch told the House. The stream was fenced off and, exactly 1,000 sockeye were lifted over the fence each year. No other variety was allowed to enter. It was found that the eight-year cycle, and not the four-year, prevailed on this stream, and at the end of the eight years 30,000 sockeye returned to the stream. This increased run was maintained for several years.

Later experiments disclosed that the increase in sockeye was due to the fact that all other species of fish had been prevented from reaching the spawning ground. Coho, humpbacks and dog salmon, which reach the spawning ground after the sockeye, destroy thousands of sockeye eggs, he said.

CONSERVATIVE CRITICISM

Dr. Wrinch said that Government speakers sometimes urged Opposition members to be constructive in their criticisms. In offering this suggestion to the Commissioner of Fisheries, the member contended he was fulfilling this condition.

Dr. Wrinch said that because of this information he did not agree with those who considered the sockeye salmon fisheries of the Coast to be a dying industry beyond hope of restoration. Whereas twenty-five years ago, at the peak of the sockeye run, six or seven cans of salmon had been sockeye, to-day, he said, that only one out of ten was sockeye. Very uneven results followed the effort to use hatcheries to stimulate an increased supply, and the method of closing a stream for four years was too costly because the industry could not afford to suspend operation for any such period.

Dr. Wrinch also discussed the claims of his constituents for appropriations, saying that his vast undeveloped resources merited the expenditure of substantial sums in providing roads, trails and bridges. He expressed gratification that the Minister of Public Works had decided to visit Hazelton before deciding upon the site of the proposed new bridge connecting the rich, productive district of the Bulkley River with the railway on the other. A wrong decision would bring heavy loss to the district, he stated.

C.P.R. and C.N.R. JOIN PROVINCE IN SURVEY OF P.G.E.

(Continued from page 1)

"On the whole, the P.G.E. grades compare very favorably with the C.P.R. and it has the additional advantage of being practically free from slides and heavy snowfalls such as obtained on some parts of the C.P.R. So, taking everything into consideration, we have a much better road than is generally thought of or anticipated."

"Owing to recent developments which have occurred in connection with the Pacific Great Eastern and northern British Columbia generally, it would be futile to consider the investigation of the Pacific Great Eastern and the territory with a view to further development without investigating this road as the most desirable outlet for the great northern country timber to the coast and, in addition, as a cross-section of the Canadian National Railway tracks to give that road an opportunity to divert such traffic as may be destined for points on its line east or west."

For many years past the Oliver Government, under the Maclean administration, have been endeavoring to dispose of the Pacific Great Eastern Railway to both British and American companies. This has been a long and arduous task, but for some time past the government has been endeavoring to achieve this end by the sale of the railway, but careful investigation has not revealed that a genuine offer was made to the government, and that this offer was not a mere gesture on the part of the late government.

SEVERAL PROPOSALS

"The present Government has had several inquiries, both British and American, concerning the road and its possible purchase, and some of those interested have sent their officials over the line with a view to investigating the road. All these inquiries have been received courteously and every facility has been given to secure information. It would be difficult to say at present whether the results will be of any value."

"However, we know that both Mr. Oliver and Dr. Maclean made strenuous efforts to interest the Canadian railway in the road. Speaking in this House on December 17, 1926, Mr. Oliver expressed himself in rather despairing terms as to the possibility of interesting either the Canadian National or the Canadian Pacific. He is reported to have spoken as follows:

"Fully realizing that this question of the Pacific Great Eastern Railway was one of the most important before the people of this Province, immediate steps were taken by the present Government, on assuming office only five months ago, to interest the Canadian railway companies, not only in the present line of the Pacific Great Eastern, but also in an extension of this road to the Peace River country. As a preliminary to an effort to solve the problem of the Pacific Great Eastern, the Government entered into an arrangement with the Canadian Pacific Railway Company for a joint survey of the natural resources of the territory served by the Pacific Great Eastern and that north of Prince George in British Columbia."

"The results of the survey, which will be undertaken by competent engineers and experts, will be submitted to the Government and the situation

will then be given further consideration in the light of the knowledge thus obtained."

TO CO-OPERATE

"On this arrangement being reached with the Canadian Pacific Railway Company, the matter was brought to the attention of the Dominion Minister of Railways and the president of the Canadian National Railway. Both cordially approved of the plan and expressed a desire that the Canadian National Railway be permitted to participate. Further than that, Sir Henry Thornton has expressed his wish that his company shall pay its share of the cost of the investigation. The Canadian Pacific Railway Company will also pay its share, so that we shall not only have the advantage of the skill of the best experts in this investigation, but will have the work done at a very substantial saving to the Province. I may add for the information of the House that the work will be commenced at the earliest possible moment, and that it will include co-operation with a few miles south of Quesnel to Prince George, with a view of improving the present location of the line if possible."

NO INTERFERENCE

"I may say further that this arrangement does not in any way interfere with the activities of other companies which are at present investigating the road."

"For the assistance given in bringing about this arrangement, I wish to express my thanks to the board of directors of the Pacific Great Eastern Railway, who have been most helpful throughout, and especially to the second member for Vancouver, who was good enough to accompany me to Montreal last December, when this agreement was brought to a conclusion."

"I think that, considering the comparative smallness of the money involved, the Government is justified in claiming some credit for this movement of co-operation with the Canadian railway. It shows, at least, that they are now genuinely interested in our railway, and, though but a preliminary step, it may easily lead to results of the utmost benefit to our Province. I think that in a matter of this kind I can confidently ask the support of every member of this Legislature."

DEFENDS BOND SALE

The recent sale of Government bonds was vigorously defended by the Premier, who said that if the former administration had accepted expert advice as was done by Hon. W. C. Shelly, the country would have saved many millions of dollars. The criticism of the sale of the bonds, which was made by the Opposition, was refuted by the Premier, who said that the sale of the bonds was a success, and that the country was now in a position to meet its obligations.

NEW MENTAL HOME

Work on the new mental hospital at Esquimalt, instead of costing \$2,000,000 as estimated, will cost \$1,670,000, it was announced Monday. The building will be used to build an infirmary to house more than 125 patients at present. Later it can be increased an additional \$200,000. The building will be used to accommodate soldier patients only and construction will be rushed.

He announced that steel sash for these buildings would be made in Vancouver, thus creating new jobs. While metal doors and partitions will be made locally and British Columbia timber will be used in the frame structures.

Quoting exhaustive figures on industrial production, the Premier declared a complete survey of agricultural marketing problems was being made for this reason the Government intended to create a marketing branch of the Department of Agriculture. This would endeavor to build up export markets and arrange that local products are supplied with British Columbia products.

Telling of the problems that confronted the administration on taking office, he declared that satisfactory progress toward a solution had been made. He said that the problem of 4,000 acres had been placed at the market, and that made successful farming possible. It was the aim of the Government to get this land settled and productive. "There is nothing wrong with the Sumas project except that it cost too much," he said. "There is land at Sumas as rich as anywhere."

PUBLIC UTILITIES

"The public utilities situation," he continued, "is commanding a good deal of the Federal attention and will be given careful consideration in the present session."

LAND TRANSFER

While, he said, Mr. Pattullo sought to take all the credit for the prospective return of the railway lands to the Province, the Premier reviewed the history of this transaction to show that it had been commenced by the late Hon. James Dunsmuir and was carried on by his Conservative successors, and he himself had pressed it in the House of Commons. Following his recent conference with the subject with the Federal Government, the transfer would be completed after details had been worked out by officials of the two Governments.

"It was rather pleasing to have this undertaking from the Federal Government," he remarked, "particularly after the statement had been made by the late Provincial Premier, when seeking the suffrage of the people, and only two others, that it was no use sending a Conservative to Ottawa to deal with a Liberal Premier. I want to take this opportunity to mention that Mr. Tolmie added, 'to say that we were received most courteously; that the Government entered into the spirit of the discussion with fairness, and in their undertaking to return the lands, showed no sign of political partisanship.'"

In Proper Sequence

She—Ah, you, too, have no doubt that your romance?

He—Yes, my eyes met, our hands met, our lips met—and then our lawyers met.

The singing Memnon was a statue when the sun rose in the morning and as it set at night. After the statue was tipped over it no longer sang.

AT THE THEATRES

RUSSIAN REVOLT IS PICTURED ON CAPITOL SCREEN

The outbreak of the Russian revolution a decade ago recently was re-enacted so realistically at the United Artists studio in Hollywood that residents thought the film city was being bombed.

Hundreds of people, including some former members of the Russian cavalry who had fought in the late Czar's armies in the days before the revolution, were recruited for the spectacular action part of John Barrymore's latest motion picture, "Tempest," which opened yesterday at the Capitol Theatre for a three-day run.

Directed by Sam Taylor and photographed by Charles Rosher and a large staff of assistants, Barrymore's new picture numbers among its supporting players Louis Wolheim, Camille Horn, the European star who was brought to Hollywood to appear in the chief feminine role; George Fawcett, Ulrich Haupt, Boris de Pae, Lena Malena and Albert Conti.

The stage attractions include Rod and Cherie, instrumentalists and singers; York and Lewis in laughs and steps; Cartwright, the well-known dancer, along with Al Prescott and his Capitol Stage Band and Jack Reed, the popular singing M.C.

COLISEUM PLAYERS PROVE POPULAR IN AMUSING COMEDY

Bringing forth rounds of hearty and enthusiastic applause from a crowded first night house, the Coliseum Players, under the direction of Raymond "Toby" Leitch opened the current week at the Coliseum Theatre last evening with a comedy production entitled "Spitters." It is only the second performance by this talented group in Victoria, but judging by the reception given last night the players are here for many weeks. The laurels of the play this evening were shared between Mr. Leitch and Miss Leone Weber, the leading lady, the former cast as a stuttering hired hand on a Western ranch, and the latter as an infatuated and well-educated daughter of the owner of the ranch. Mr. Leitch seems to have some peculiar charm about his comedy. Last night by the mere moving of his hand or the wiggling of his toes he had an audience of several hundred in convulsive laughter. With his flaming red hair and generally rustic appearance he is a comical figure, but dearly beloved by all the employees of the large Arizona ranch. Miss Weber is splendid. Appearing in riding outfit she is as pretty as she is charming. With a duties performed with an infatuated and well-educated daughter of the owner of the ranch. Mr. Leitch seems to have some peculiar charm about his comedy. Last night by the mere moving of his hand or the wiggling of his toes he had an audience of several hundred in convulsive laughter. FIRE TRUCKS ARE SOUGHT

Motor Pump and Combination Wagons Asked For By Fire Chief

Five More Men Needed By Department, City Council Is Told

Purchase of two new fire trucks, and an increase of five men in the Victoria Fire Department were recommended by Fire Chief Vernon W. Stewart in a report to the City Council last night. The purchase of an 800-gallon capacity motor pump rig, and a combination chemical and hose wagon was urged as necessary additions to the present equipment. Five more men would also be needed to round out the force, it was stated.

In reporting on the operation of fire prevention work for 1928, Chief Stewart showed 468 alarms had been attended with an actual loss of \$21,415 in buildings and contents, or an average loss of \$300 per fire where damage occurred. The department put in 2,349 drills, and made 6,177 inspections in the business area of the city during the year. The staff lost two employees, one called by death, and the other by resignation.

NO ACTION The report was passed to the "year-book" committee of the council. No action was taken in council on the recommendations made by the fire chief.

The city fire wardens secured sanction for the continuance of telephone service and boot allowance to the fire fighters. No report was made on the request of the men for a salary increase this year.

Tenders for firemen's clothing, hose and other requirements were received and passed to committee for analysis. Turner Beeton, W. A. Sprinkling, Fyvie Bros., J. H. Hermann, Goodyear Tire Company, Outta Percha Rubber Company, Dominion Rubber Company, Northern Electric and the Eugene Philip Electric Company, tendered on various materials. The Fire Chief, wardens and purchasing agent were instructed to report on the bids.

Royal Oak

Royal Oak, Feb. 5.—A Valentine dance, under the auspices of the Royal Oak Badminton Club, will be held in Royal Oak Community Hall, Wednesday, February 6. The Melodian three-piece orchestra, will supply the music.

The Corporate Communion and Women's Auxiliary meeting, to have been held on Tuesday morning at St. Michael's and All Angels Church, has been postponed.

Head Colds May End in Nasal Catarrh or Flu!

Relief in one minute

Head colds may end in loathsome nasal catarrh or dangerous flu. Act quickly at the first sign of any clogged condition, mucous discharge or ringing in the ears. Clear out the germs by applying a little Ely's Cream Balm in the nostrils. This well-known antiseptic cream has great penetrative powers; reaches every air passage, drives out germ-laden mucus, clears up head. Relief from head colds in one minute! All druggists sell the famous Ely's Cream Balm. (Adv.)

TENDERS AWARDED BY CITY

Contracts Let For Annual Supplies of Material to Local Firms

Alderman H. O. Litchfield Sees Possible Menace in Wireless Bill

Tenders awarded by the City Council last night included contracts for most of the annual supplies required by the corporation. The Pioneer Sand and Gravel Company and the Producers Sand and Gravel Company will share jointly in the supply of sand and gravel to the city at \$1.50 a cubic yard. The Evans, Coleman, Evans's bid on cement at \$2.80 a barrel was accepted.

Printing and stationery was split between various firms as follows: The Colonist Printing and Publishing Company, \$335.20; Victoria Book and Stationery, \$307.51; and Digson's Limited, \$159.30.

The city will get its coal from Macdonald and Gillespie, at a price range of \$10.70 to \$10.15 per ton for coal, \$7 a ton for slack and from \$5.75 to \$5.9 a cord for wood in various forms.

COOK OWN BUNS The milk supply will be furnished by J. G. Dobson at 26 cents a gallon. The city's bread will come from the Canadian Bakeries at six and two-thirds cents a pound, but the city may make its own buns. Aldermen will shortly watch a trial baking by the cook at the Old Men's Home, who is credited with skill and mastery achievement in the manufacture of plain and fancy buns.

The council went on record as approving the centre line of Foul Bay Road in part as the correct municipal boundary between Oak Bay and the city. The point was said to have been in doubt for some years, but was settled without arbitration.

ARRANGE LOAN VOTE The Technical High School Loan Bill will go to the ratepayers on either February 26 or February 28, the council decided, but left the exact date open to see what arrangement will least inconvenience stall holders at the market building. The loan by-law will be prepared meanwhile, and made ready for submission.

Alderman H. O. Litchfield was appointed city trustee on the administration of the fund created by the late Hon. Walter C. Nichol for the encouragement of art pottery. A kiln has been set up in the City Market Building, and the work would now go forward without delay, it was stated.

FEARS PRIVATE BILL Alderman Litchfield appealed to the council to keep the official eyes on a private bill before the Legislature in regard to a proposed charter for wireless telephone service. The bill asked long term privileges and would be watching, he affirmed.

Pringle, city solicitor, was appointed to take up the matter with the Union of B.C. Municipalities. Criticism of the new sign by-law was described by Mayor Herbert Anscomb as premature. The by-law was still in the committee stage, and nothing of an executive nature had been done with it, he stated.

The council received a communication from the directors of the Chamber of Commerce drawing attention to the views of the retail merchants' section on the suggested terms of the new by-law, but tabled this pending the report of the works committee, formally vested with the preparation of the measure.

SEEK CHANGE IN LAW Automatic registration of all classes of taxpayers, licenses, and licenses cannot be brought about without legislative changes in existing laws, Mr. Pringle reported. The point was suggested by Mayor Anscomb in his inaugural address, and the council voted last night to see what could be done to draw the attention of the Legislature to existing registration difficulties.

The 1929 council maintained and improved its record by covering a lengthy agenda in a time of little over one hour. No speaker last night used longer than thirty seconds in one sustained address, and long-distance marathon talking was abandoned. The sole exception to this was the assistant municipal clerk, who was compelled to read lengthy epistles from ratepayers to the bitter end.

PLAN OUTLINED A special survey of the area suggested for first attention would cost \$1,140, or at the rate of \$30 a lot for thirty-eight lots. Of this cost the city would bear one third, and the owners two thirds. The city would advance the money for all the work, but would have power to levy directly on the land affected for the two-thirds share required from owners. The initial survey, if undertaken, would likely be followed by others, until some 1,800 parcels of land had been resurveyed, it was explained.

The benefits from the plan, as advanced to the council, were that the special survey would set at rest all doubts as to titles and property limits. The work would cost not more than \$30 a lot, compared to \$50 a lot stated as the average cost of private survey. An entire survey of the 1,800 parcels would cost about \$45,000 it was stated, and would be good business for the owners concerned.

A motion to proceed at once to bring about a special survey of the Government to Douglas loop named was made by Alderman E. B. Woodward, and seconded by Alderman W. T. Straith. Mayor Anscomb accepted the suggestion by Alderman Woodward, and J. L. Mara that the works committee first study the plan in greater detail and bring in a report to the council. This action carried.

Rivera's Rule In Spain Weakening London, Feb. 5.—The London Daily Mail to-day printed a dispatch from a correspondent recently in Madrid, baring a more serious aspect than had been indicated in official statements. The army was said to disapprove of the severe disciplinary measures taken at Ciudad Real and Valencia.

The correspondent said that if the Dictator should continue in power there was a prospect of a widespread social revolt later, and the opinion was general he should retire before the good he had accomplished would face the possibility of being undone.

CITY TAKES C.P.R. OFFER

Cluster Lighting Standards to Be Extended on Douglas Street

Land Sales Show \$16,740 Total For First Five Weeks of Year

An extension of the cluster lighting system along both sides of Douglas Street from Humboldt to Belleville Street was authorized by the City Council last night, in arrangement with the Canadian Pacific Railway, who will bear most of the cost of the installation.

Sixteen standards with eighty double strength lights will be erected at a cost of \$2,570 to the C.P.R., and \$300 to the city. In return for direct financial aid in this extension plan the C.P.R. will be accorded leasehold rights on a lot recently acquired by the city on Blanchard Street in rear of the Crystal Garden property. The new lighting system will be a handsome addition to Douglas Street, it was stated.

The council ratified \$2,600 worth of cash sales for two city lots, recommended by the finance committee. A lot on the west side of Douglas Street between Bay and Hillside will bring \$2,000 cash, while one on the north side of Vimy Street between Moss and Windermere, will pass for \$600 cash.

The report brought sales of city property in the first five weeks of this year up to \$16,740, a high peak for this time of the year.

FIGHT FORECAST ON POWER BILL

Grand Forks Files Objection to Kootenay Company Bill

A battle in the Legislature of the bill of the West Kootenay Power and Light Company was forecast yesterday when a petition was presented by Dr. C. M. Kingston, member for Grand Forks, outlining objections of the municipality to the bill. The bill, which provides for an extension of the territory for the supply of power beyond that covered by the present charter, follows appeals to the courts and to the Minister of Lands, in the course of which it is argued that the company was supplying power irregularly over a great area of the Kootenay Company.

SUGGESTIONS OF MUNICIPALITIES BROUGHT FORWARD (Continued from page 1)

WANT TO TAX TAXES Through H. S. Pringle, City Solicitor, the city of Victoria sought the right to tax gasoline and oil tanks used for storage purposes.

The application was resisted by A. Dr. King for the B.C. Electric who claimed the tanks should be in the same class as chattels. The discussion came up under the head of assessment improvements on which the municipalities are seeking subdivision of land affected by Crown grant.

TO LOWER TAX PENALTY Reduction of the tax penalty imposed for non-payment of taxes from fifteen per cent to twelve per cent is recommended.

A ruling is sought to clear up a misunderstanding on whether a money by-law must be advertised ten days in a local newspaper instead of one day while other by-laws are advertised.

Demand that the Government either take over the operation of the schools or put the Putnam-Weir report into effect to broaden the basis of school taxation was the outstanding demand of the executive.

In view of the fact that school teachers' salaries have doubled since the amount of the Government grant was fixed, the Union also requested that the grant for this purpose be doubled.

UTILITIES COMMISSION Demand for creation of a public utilities commission with effective powers to regulate rates, capitalization and contracts of all public utility companies and their subsidiaries based on sound principles of law and economics was also voiced.

Several amendments to the Motor Act were proposed. Nominal license fees for vehicles used by municipalities for ambulances, rubbish or garbage collection, etc., and rebate of gasoline tax pertaining to such vehicles was asked. Discretion on the part of the magistrate whether to cancel the white driver's license or upon conviction for infractions of the Act was also recommended.

Revision of the classification of highways to bring about a fairer division of cost between Province and municipalities was suggested.

BALLOT WINS PRAISE M. F. Hunter, city clerk of Victoria, won the commendation of the committee for his explanation of the merits of a new type of ballot to be used in municipal elections. Separate sheets for mayor, aldermen, police commissioner and school trustees are all fastened together. Mr. Hunter said the proposed ballot saved time in voting and in counting the ballots, simplified the voters' task, made the use of the floating ballot device for corrupt practices impossible, insured that each voter would vote in all contests and effected a saving of twenty-five per cent in the cost of conducting the election. He urged permissive legislation so that Victoria might make the experiment next year to see how the scheme worked.

On the delegation were Alderman H. E. Bridgman, North Vancouver, Mayor

T. A. Love, Grand Forks; Reeve Crouch, Saanich; Comptroller A. J. Pilkington, Vancouver; Reeve D. Poppy, Langley; Reeve Martyn, Maple Ridge; Clerk Blandy, Oak Bay; Clerk Hunter, Victoria; Clerk Farmer, Surrey, and George E. Martyn, solicitor for the Union. Mayor A. Wells Gray of New Westminster, secretary of the Union, occupies a desk position in that he is also a member of the House municipal committee hearing the delegation.

Views Stated On Censorship Misinterpreted

Vancouver Local Council of Women Send Another Theatre Letter to Pooley

President of Group Says No Newspaper Suppression Was Suggested

Vancouver, Feb. 5.—Stating Attorney-General R. H. Pooley, in his attitude towards the censoring of theatre advertising, had put a wrong interpretation on the resolution forwarded to him by the council, Mrs. G. O. Falls, president, at a meeting of the Vancouver Local Council of Women yesterday told the members another letter had been sent to the Minister, explaining in full detail the council's opinion on this question.

Some time ago the Local Council of Women urged a censorship for theatre advertising and billboards, because parts deleted from moving pictures were still used in advertisements. To prevent such sensational material being used, its members asked that advertising in any form be censored before appearing in public.

The council's letter to Mr. Pooley stated it was not in favor of having parts of the programme of the pictures printed in a newspaper, for this would mean suppression of the press, and the council was very much against any such principle. According to Mrs. Falls, there would continue to advertise as in the past, only such parts as were censored from the moving picture would also be censored from the advertisements.

WATERPOWER PROBLEMS NEED WIDER INQUIRY

(Continued from page 1)

NAVIGATION QUESTION

The questions and formal answers given by the court follow: Question 1.—Where the bed of a navigable river is vested in the Crown in the right of the Province, is the title subordinate to the public right of navigation?

Question 1b.—If not, has the Dominion the legal power to declare that such title is subordinate to such right?

Answer.—The questions as framed postulate the existence of a public right of navigation in the river in which they refer, as well as their navigability.

The title to the bed of the river is subject to that public right, except in so far as, at the date of the Union, the Crown possessed by law, or has since acquired under Dominion legislation, a superior right to use or to grant the use of the waters of the river for other purposes, such as for example, as mining, irrigation or industry.

DIVERSION OF WATER

Question 2.—Where the bed of a navigable river is vested in the Crown in the right of the Province, has the Dominion the power, for navigation purposes, to use or occupy part of such bed or to divert, diminish or change the flow of the water of the river without the consent of the Province; (b) without compensation?

Question 3.—Has the Parliament of Canada the power by appropriate legislation to authorize the Dominion Government to expropriate lands of the Crown in the right of the Province for the purpose of navigation with provision or without provision for compensation?

Answer.—These questions can not be answered categorically either in the affirmative or the negative.

The conditions controlling the exercise of Dominion legislative power in such purposes embraced within the comprehensive phrase, "navigation purposes," depend in part upon the nature of the purpose, in part upon the nature of the means proposed for accomplishing it and in part on the character of the particular power called into play. Reference is respectfully made to the observations in the accompanying reasons, as indicating the governing principles with as much definiteness as is safe or practicable.

CANAL WORKS Question 4.—By section 108 of the British North America Act of 1867 and the first item of the third schedule thereto, the following public works and property of each province, among others, shall be the property of Canada, namely, "canals with lands and water power connected therewith."

Has the province any proprietary interest in or beneficial ownership of, or legislative control over the water power which, though connected with the canal, is created or made available by reason of extension, enlargements or replacements of said canals made by the Dominion since Confederation and which is not required from time to time for the purpose of navigation?

Question 5.—Where the bed of a navigable river is vested in the Crown in the right of a Province, has the Province any proprietary interest in or beneficial ownership of, or legislative control over the waterpower created or made available by works for the improvement of navigation constructed thereupon in whole or in part by or under the authority of the Dominion since Confederation which is not required from time to time for the purpose of navigation?

Answer.—Wherever subjects are comprehended under the phrase "waterpower" in the first item of the third schedule, by section 108 passed to the Dominion there was left to the provinces neither proprietary interest in nor beneficial ownership of such subjects, and under section 91 (Ont.) legislative control over them is exclusively committed to the Dominion.

PLAN TO COVER FIELD AS FAR EAST AS REGINA

F. M. Ross, Who Negotiated Coughlan Deal For Eastern Interests, Visits City

Frank M. Ross of Montreal, who put through the big deal involving the purchase of the Coughlan steel plant at Vancouver for a powerful group of Eastern Canadian interests, arrived in Victoria to-day "just to look over the city." The big steel deal was reported in yesterday's edition of The Times.

Mr. Ross is vice-president of Canada-Vickers Limited, the Hamilton Bridge Company, the St. John Drydock & Shipbuilding Company, and a director of numerous other Canadian industrial and manufacturing concerns.

Before leaving for the mainland this afternoon, Mr. Ross informed a Times reporter at the Empress Hotel that the interests he represented did not plan any developments in Victoria or on Vancouver Island.

BIG FABRICATING PLANT A British Columbia company would be formed under the name of Western Canada Structural Steel & Bridge Company Limited, he stated, the fabrication of structural steel at Vancouver, where the construction of a new plant would be undertaken at once.

"We plan to cover the entire steel field in British Columbia and as far East as Regina with our Vancouver steel fabricating plant," said Mr. Ross.

FARMERS ASK SAANICH BE SPLIT IN TWO

(Continued from page 1)

The real start of the agitation by rural wards, asserted counsel was the application of what was known as the Greenwood assessment, by which Ward Six had been increased by \$370,000. Many appeals had been taken to the court of revision, but the court had been deaf to these appeals as successive councils had been deaf to the plight of the rural wards.

In one period, until stopped by legislation in 1927, the municipality had exacted an illegal tax on the rural wards, averaging \$2 an acre for which they had been paying the same rate as the urban wards.

A farmer was lucky to clear \$7 an acre from his crops said Mr. O'Halloran. The East Saanich Road, with a ten-mile front in the rural wards, was a drain on these wards, and had been charged against them in the current collection of debt, as well as appropriations for continued road work. As Mr. O'Halloran had the rural wards had paid for the whole cost of the road in the municipality, but this was disputed.

NO LONGER BEAR BURDEN To put the complaints in a summarized form, counsel stated the Crown rural wards felt that farming land could no longer bear the tax imposed on it. The incidence of taxation fell most heavily on the farmer, and rural wards have supported the Crown rural wards with school costs and deficits in the inner wards. Rural wards collected less in Government grants, for a sparser population, and felt all taxation the more heavily for the same reason. In council circles rural wards were always voted down by inner wards, and this condition had become intolerable, said counsel.

The illegal taxation had been stopped, but no redress had yet been applied to those who had borne it. The four counsel appear in the hearing, in council circles rural wards were always voted down by inner wards, and this condition had become intolerable, said counsel.

Two camps existed in Saanich, and it was a "cat and dog" existence, concluded Mr. O'Halloran, who has introduced the first evidence for the commissionists this afternoon when the commission resumes.

METHOD TO BE EMPLOYED Before the commissionists began their case, this morning the manner in which all data will be obtained was settled. James Fairweather, special assessment expert for the City of Victoria, has been briefed to prepare a list of the rural wards, and to supply bare, free rein over the naval programme of the measure authorizing fifteen cruisers and an aeroplane carrier at a cost of \$274,000,000, regarded as assured.

Washington, Feb. 5.—Although President Coolidge does not appear at the Cruiser Construction Bill with the time restriction clause, he does not wish to be understood as saying positively he would veto the measure.

SENATE OF U.S. VOTES BILL FOR NEW CRUISERS (Continued from page 1)

RAPIDLY GROW OBSOLETE Discussing the bill with newspapermen, Mr. Coolidge has repeatedly urged that the United States would gain nothing by spending a vast sum in the next few years on fifteen cruisers which would become obsolete all at the same time.

The principle might be established that no matter what the state of the public exchequer, the United States would be committed to spend about a quarter of a billion dollars every so often within a fixed period to keep its navy up to parity. The present administration and the one which will immediately succeed it are not so much concerned with what may happen in the future as with what is happening now.

TAX REDUCTION The Coolidge policy of debt reduction has kept the exchequer comparatively empty. While other countries have been paying off their war debt by means of high taxes, the United States has been able to cut taxes year after year throughout the post-war period.

But debt and tax reduction has been accomplished at the cost of depletion of the treasury, and now that public opinion demands naval expansion, there are many people who wonder whether it would not have been better to have let the public debt stand and build up a surplus.

SENATE VOTE Washington, Feb. 5.—Overriding the expressed wish of President Coolidge,

Angus Campbell & Co. Ltd.

1008-10 GOVERNMENT STREET

Wednesday Morning Specials

It will pay you, and pay you well, to take advantage of these Wednesday Morning specials. They are outstanding values, and early morning shopping is best, as in some cases quantities are limited.

Women's Cotton Fleece Bloomers To Clear at 49c Per Pair

Women's Wool Gauntlets Regular to \$1.75 Per Pair

Women's fine quality Brushed Wool Gauntlets in dark colors only; sizes 6 to 7½. Regular up to \$1.75. To clear at per pair 98c

Time Limit for Booth Hearing

the Senate, by a vote of fifty-four to twenty-eight, refused last yesterday to stimulate from the Cruiser Construction Bill the stipulation that the sixteen ships shall be laid down before July 1, 1931.

Party lines went to smash on the proposal, with a Democrat, Senator Harrison of Mississippi, offering the amendment to give the President a free rein over the naval programme and twenty-six Republicans voting against the Coolidge request.

This disposed of the dominant issue in the cruiser fight, and the Senate adjourned to meet to-day, when passage of the measure authorizing fifteen cruisers and an aeroplane carrier at a cost of \$274,000,000, regarded as assured.

Washington, Feb. 5.—Although President Coolidge does not appear at the Cruiser Construction Bill with the time restriction clause, he does not wish to be understood as saying positively he would veto the measure.

New Plane Record Is Set in the U.S.

Roosevelt Field, N.Y., Feb. 5.—Captain Frank Hawks and O. E. Grubb arrived here at 2:59.25 this afternoon after a nonstop flight from Los Angeles in their Lockheed monoplane.

The plane's time was thirty-six minutes and one second less than that made up by Art Goebel.

Vancouver Drug Pledges End to All Stomach Pains or No Cost!

Says PINK CAPSULES FOR INDIGESTION WILL Banish Indigestion or Money-back

Through special arrangements PINK CAPSULES FOR INDIGESTION are now being offered here on a special trial-offer plan. This wonderful new remedy is definitely

guaranteed to banish ALL indigestion, gas, bloating, heartburn and all stomach troubles, or the purchase price is returned at once and without question. The coupon below is valuable, read it!

MONEY-SAVING COUPON!

Present this Coupon and 98 cents and receive a full-size \$1.25 box of PINK CAPSULES FOR INDIGESTION on the definite understanding that they must rid you of all stomach ills or the money is refunded at once. Try a box now. This special offer is limited.

COULD FINANCE IT EASILY

MOTOR VEHICLE OWNERS OF Victoria and vicinity contribute to the provincial treasury enough in gasoline taxes and license charges alone to pay for the construction and maintenance of the proposed Ocean Highway to Banfield and leave a substantial surplus besides.

The average annual motor car license, according to Government returns, is about \$19.50. The average motor car owner pays about \$11.20 a year per car in gasoline taxes. There are approximately 10,500 motor vehicles in Victoria and vicinity. Hence the revenue from this district in car licenses is more than \$204,000, while the revenue from the gasoline tax is more than \$117,000, the two combined being \$321,000.

The estimated cost of the Ocean Highway is around \$2,000,000. If the Government should borrow at \$4.90—and before long it should do better than that—the annual interest charge would be \$98,000. If it set aside \$100,000 annually with which to retire the loan, its total annual charge on account of the loan would be \$198,000, leaving still some \$123,000 for maintenance and surplus.

This does not take into account any revenue from tourists, normal increases in the number of motor vehicle owners or the prospective additional increase which would follow the opening up of the West Coast region and the accelerated growth of the population of Victoria and vicinity. If we included these factors on the basis of the records of the last five years our position would be even stronger, and the surplus over all charges on account of the project would be much greater.

On Vancouver Island as a whole there are 18,000 motor vehicle gasoline tax and license contributors to the provincial treasury from whom, under these two heads, a total revenue of \$550,000 is derived. This would finance the construction and maintenance of four ocean highways, and there would still be an impressive surplus.

The fact is, of course, that most of the gasoline tax and license revenue from Vancouver Island has been used to finance road construction elsewhere. Obviously, some of it can still be used for that purpose and there would be enough left to pay for the highway requirements of both the east and west coasts of the Island.

A FINE EFFORT

THE LOCAL KIWANIS CLUB DID exceptionally well in its Christmas campaign of selling seals to aid the tuberculous. The drive brought a net return of \$2,612.58. Nearly half of this will be turned over to the sanitarium at Tranquille and the rest will be handed to the local branch of the Tuberculous Veterans' Association to assist the highly commendable work it is doing among sufferers from the malady in Victoria.

It should be noted that the Kiwanis Club members addressed and mailed no less than eight thousand envelopes, each containing one dollar's worth of seals, which either might be returned or purchased, a stamped and addressed envelope being provided. The gross receipts—from which, of course, postage and the cost of envelopes had to be deducted—amounted to \$3,836.59. In other words, nearly half the seals sent out were bought.

THE PACIFIC GREAT EASTERN

PREMIER TOLMIE PROPOSES TO ask the Canadian Pacific Railway Co. and the Canadian National Railways to undertake a survey of the Pacific Great Eastern Railway system and give him an opinion as to what should be done with the line and the country it now serves and would serve if it were completed to Prince George or extended into the Peace River country. He explains that this arrangement does not involve any obligation on the part of the province to sell to either company if either should desire to purchase it after having investigated its possibilities. Nor, of course, does any obligation rest upon the two transportation organizations.

There need be no surprise if the public does not wax enthusiastic about the Prime Minister's proposal, because it is not really new. Seven years ago, Mr. J. G. Sullivan, chief engineer of the Canadian Pacific Railway; Mr. W.

P. Hinton, former general manager of the Grand Trunk Pacific Railway, and Colonel J. S. Dennis, director of colonization for the Canadian Pacific Railway, made a thorough survey of the line, each submitting a report. It will be recalled, also, that neither of these experts was able to give the Government of that day any very encouraging advice. Their reports, of course, are public property and the present Administration has access to them.

The economic position of the road at that time was not promising. Its future looked hopeless. Large annual deficits had to be met from the provincial treasury and it was being suggested in some quarters that the province might do much worse than cut its loss and abandon the line. Circumstances, however, did not warrant such a policy of despair; other methods were employed and in the meantime conditions have vastly improved.

No longer is it fair to describe the property as a "white elephant." Nevertheless, it still is a liability and some time must elapse—unless it shall be sold—before it may be looked upon as one of the province's assets. But if, as a result of the investigation which is to be undertaken, the Tolmie Government is able to hasten the day when there will be a trading balance on the right side of the ledger, or dispose of the line, the public will feel hopeful about it.

A CHANCE FOR SOMEBODY

WE HAVE NOT OBSERVED THAT any member of the Legislature has taken advantage of the opportunity to make a name for himself by moving to amend the provincial law regarding arrest and imprisonment for debt, under which it now is possible for a debtor to be imprisoned for life. This matter, affecting the liberty of the subject, is much more important than nine-tenths of the subjects before the House.

If Paul Wise had been a white man instead of a Chinese, what a howl would have ascended to high heaven over his case! What a cloud of resolutions from all sorts of public and semi-public organizations would have descended upon the Legislature!

Here is a fine chance for some ambitious legislator to do something worth while by urging the removal from one of our statutes of a menace to the public interest.

AN UGLY PICTURE

WE ARE TOLD IN AN OFFICIAL paper just issued in Russia that the average boy in Moscow begins to smoke at the age of seven, drinks vodka when he is eight, and often becomes an accomplished pickpocket before his tenth birthday. It also is pointed out that a commission appointed to study crime in the Bolshevik capital has discovered that seventy-five per cent of the child criminals had parents living and fifty per cent attended school. Government-owned movies, by the way, are held responsible for inciting children to crime.

If we may take these discoveries as a fair picture of what is happening to the youth of Russia, we may well be apprehensive about the future of that great country. Under the old regime, and no doubt under the new, the illiterate mass, approximately eighty per cent of the Russian people—in the main the peasantry—were plain, honest and God-fearing people. They smarted under the old brutal system and they are smarting under circumstances which have not improved their lot under the new; but in spite of it all an intensely religious fervor has rested on a simple faith. Is it to be supposed that the mental outlook of the average youthful miscreant of the city will spread to the youth of the farms and the countryside? It is not a pleasant prospect for the present leaders in Russia and it is to be hoped that the condition described in the paper to which we have referred has been overdrawn. Russia cannot ignore religion; she must at least compromise with it or go down to lower depths. Her course involves the rest of Europe to a greater or lesser degree.

"IF"

THE POLITICAL STATISTICIAN has been busy with the votes cast for Mr. Hoover and Mr. Smith in the recent presidential elections and he finds that if 424,541 votes out of about 36,435,000 cast could be rearranged, Mr. Smith would be the next President instead of Mr. Hoover. Under this rearrangement Mr. Smith would get eighteen additional states and a total of 369 votes in the electoral college—more than one hundred to spare.

This is not a new post-election condition. By a similarly careful re-arrangement of votes in British Columbia after the provincial contest last Summer the majority which Dr. Tolmie now enjoys in the Legislature could have been very considerably reduced. The result of many a Dominion election likewise could have been changed by this process. Mr. Baldwin in the British House of Commons has a majority in Parliament of about 200; but the anti-Conservative vote at the general election in 1924 was nearly three-quarters of a million in excess of that of the victors.

Across the Bay

Dr. Tolmie Comes From Saanich to Tell About His Government—And the P.G.E.—Together With Many Facts About Sheep and Prunes—And the Verdict of the House Is That His First Speech Is All Right

Dr. Tolmie came to the Legislature of British Columbia yesterday. He came with a P.G.E. announcement, a talk on the government of the Province, many figures about our beef cattle and prune imports, with the air of Saanich about him, and with a boundless good-nature which embraced everything and everybody, including the Opposition.

It was quite an occasion across James Bay for it was the first speech of a new Prime Minister. The galleries were jammed, the floor of the House held prominent visitors and the Premier's Party were so primed with excitement that they laughed loudly at the smallest allusion and pounded their desks at the end of every second paragraph. The first thing the House heard was the Premier rose from his specially-made arm chair was gratifying to all, and Mr. Pattullo was prompt to express the real pleasure of the Opposition over it. The Premier has returned full of vigor, without a trace of weakness in his voice, fresher than he left two weeks ago. A rest in the quiet of his farm seems to have given him new spirit, new strength and new confidence.

As you watched the Premier from the press gallery, standing in the old familiar place where the other prime ministers have stood before him, your mind went back to those who are not with us any more. It was inevitable that Dr. Tolmie should be compared unconsciously by everyone with John Oliver and with Dr. MacLean, for it is those two premiers that the present House remembers best. In that comparison the three of them stand the poles apart.

Mr. Oliver's speech at the first of a session was in the nature of a battle. He would listen to the attack of the Opposition at the opening, scribble a few detached notes and then up and at them, with no quarter given and none asked. He would plunge into the thick of it, laying on his blows in all directions. There was fire, passion and color in a first speech by John Oliver. It left the House chastened and quiet for days afterwards.

Then came Dr. MacLean, who was as calm as his former chief was impetuous, full of cold facts, businesslike and without emotion. He did not chatter the House, but left it with much solid material to ponder on, and usually with a dash of mystery to intrigue it.

Dr. Tolmie's method is something entirely new. He merely talks to the House quietly and confidentially just as he would talk to a neighbor on a Spring morning across a rail fence at Brae-side Farm. Premier Tolmie has no barbs for anyone, not even for Mr. Pattullo. He assured Mr. Pattullo that he knew Mr. Pattullo would have said those unkind things about the Government if Mr. Pattullo had only known the facts. And turning as always to the soil for his metaphors, he added that the electors had only left enough Liberals with Mr. Pattullo in the House for seed purposes as they didn't want the species to die out entirely. He was even genial as he pursued the only purely political passage in his address. He recalled the Vahlhaia Cemetery business, which Mr. Pattullo had something to do with; and in such a way that Mr. Pattullo himself had to smile.

It was only when he reached agriculture that he lapsed momentarily. When Dr. Tolmie gets on to that you never know where he will go or when he will return. He made several little excursions into the production of high grade cattle, the quality of beef steers and such things, but remembered the business in hand before it was too late and came back, with an effort and some regret.

It was when he got to his old familiar figures on sheep production and the importation of meat and all that sort of thing that he was most at home. He revelled in them. He quoted exhaustive statistics with an uncanny memory for them. He revolved them around again and again. He told of Hen Number 6—a Liberal hen, to be sure, but that, he said, was not her fault—and all her numerous descendants. And there was times when in his voice as he pictured the lonely, wasted prunes of Canada rolled on the ground while prunes of California, 170,000,000 pounds of them a year, filled the breakfast tables of this country.

That part of his speech was an evident pleasure to him and he turned to the P.G.E. and other things as a man opens his desk for the grind of daily toil.

The Conservatives, of course, listened with delight and much pounding of desks. The Opposition listened with interest and a quizzical look as if they would like to know what kind of a man they have to deal with behind the smile. Mr. Pattullo sat with folded arms, occasionally smiling with the air of one who knew many things not yet apparent. Mr. Manson filled things not yet apparent. Mr. Manson filled several pages of notes, evidently having been chosen to joust with the leader of the Government. Mr. Ian Mackenzie also took copious extracts and apparently he, too, will reply to the Doctor in due course.

The Premier, of course, was the event of the day, and not much else happened. Dr. Tolmie, who is one of the most respected public men in British Columbia, delivered a customary address, long, able and bare of everything but facts. There was a bit of a fight over Mr. Manson's motion asking for an investigation into the right of Capt. Fitzsimmons and Mr. Mitchell to sit in the House. Mr. Speaker was sustained in his ruling that Mr. Manson was out of order. And then the House went home to discuss the first appearance of its new leader.

WHAT OTHER PAPERS SAY

SOMETHING ON ACCOUNT

Several London policemen have gone to America. We are even sending them our odd coppers now.

WHERE THEY FAIL

Scientists are making a lot of marvelous discoveries these days, but thus far they've failed to find a cure for psycho-analysis.

WINTER TOURIST TRAFFIC

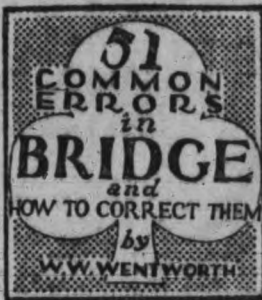

Canada should do more to advertise her winter attractions. The climate of Europe flock to Switzerland at this time of year. Canada could develop winter tourist traffic of very considerable proportions.

A THOUGHT

The tip of truth shall be established forever, but a lying tongue is but for a moment.—Prov. xii 18.
Integrity gains strength by use.—Tillotson.

9 3 2

West—
Leads 3

South (Declarer)—
A K J
K 5
Q 10 8 4

The bidding: South obtains contract for one no-trump.

Deciding the play: West leads 3 of hearts and Declarer must take trick with King of hearts. What card should Declarer now play to insure game?

The error: Declarer leads 4 of diamonds and takes with King of diamonds in the Dummy whereupon it develops that East is blank of the suit and West holds the Jack of diamonds with three others.

The correct method: To insure making game, Declarer must make five tricks in diamonds. Declarer plays the Queen of diamonds to ascertain the distribution of the four missing cards in that suit. With this information, he is in the position to finesse to capture all of them no matter how they are distributed.

The principle: Endeavor to retain a commanding honor in each hand for successful finessing.

The WEATHER

Daily Bulletin Published by the Victoria Meteorological Department

Victoria, Feb. 5—5 a.m.—The barometer is rising over this Province and cold weather continues from the Coast to Manitoba.

TWENTY-FIVE YEARS AGO TO-DAY

The Victoria Daily Times, February 5, 1904

The thirteenth yearly report and financial statement of the management committee of the J.B.A.A. was presented at the annual meeting of the members and shareholders, which was held Tuesday.

J. G. Bullen arrived on the R.M.S. Empress of China from Japan yesterday. Those who attended the illustrated lecture on "Salmon Propagation, Results and Methods," by J. P. Babcock, provincial fishery commissioner, in the Board of Trade rooms on Wednesday, certainly enjoyed a very interesting and instructive address.

Victoria and vicinity—Weather Forecast—Light or moderate winds, generally fair, and cold.

Other People's Views

Letters addressed to the Editor and intended for publication must be short and legibly written. The Editor is not responsible for the return of letters. All communications must bear the name and address of the writer, but not for publication unless the writer wishes. The publication or rejection of articles is a matter entirely in the discretion of the Editor. NOT THE SAME

To the Editor:—Will you kindly say in your paper that I am not the F. W. Bland that was fined for driving to the common danger.

W. W. BLAND,
Locomotive Engineer, E. & N. Ry. Co.
545 Dalton St., Victoria, Feb. 2, 1929.

NEGLECTED DOGS

To the Editor:—Might I ask a small space in your valuable paper to draw attention to the large number of dogs that seem to be uncared for in this city and its suburbs. These animals are running about everywhere searching for food. It is not only during the cold weather, but all the time. Of course now they are really suffering, and it should hardly be permitted in a city like Victoria. There are far too many dogs and cats. People with decent feelings find it very painful to refuse food when a starving animal begs for it. These unfortunate and neglected creatures are becoming a public nuisance.

A LOVER OF ANIMALS.
February 2, 1929.

POOLEY AND BOWSER

To the Editor:—In Friday's issue of The Province (which before the last Provincial election so enthusiastically supported the Conservative Party) the new Conservative Government is referred to as "Dumbbells" and the new Attorney-General is christened "Punch and Judy Pooley." Your Vancouver contemporary prays for the immediate return to the Legislature of Dr. Tolmie, as they fear that Mr. Pooley will, if unchecked, ruin the Government.

Prior to the last election a group of Conservatives in Victoria, realizing that the worthy doctor would experience the greatest difficulty in forming a cabinet out of the material at his disposal, endeavored to secure the inclusion of Mr. W. J. Bowser as a member of the new Government—and to supplant the existing Conservative representatives for Victoria City by other members of the party who had, in the counsels of the party, displayed the common sense which was lacking in certain quarters. Dr. Tolmie, however, frowned on these elements within the party and sought the counsel of Messrs. Pooley, Twigg, Hinchliffe and Hayward.

To-day the prognostications of the "Rebel Conservatives" are being borne out. From the platform of the independent candidate it was stated that the "embargo on logs" would never go into effect, that Civil Servants would be fired indiscriminately and that Pooley would be the same Harry Pooley who acted the part of Kaiser in Esquimalt in 1916 when he threatened to have certain dockyard workers dismissed for their political views. Many good Conservatives who opposed the ideas of the Independent Conservative group very strenuously are now beginning to realize that the "Rebels" were right after all.

S. MACGREGOR,
Dominion Hotel, Victoria, B.C., February 2, 1929.

REVISION OF THE GAME LAWS

To the Editor:—It appears that the provincial game laws are to be improved, radically reformed from the ground up.

It is, therefore, perhaps permissible in this connection to suggest that some consideration should be given to existing methods of trapping wild animals. People of average mentality readily concede that the old system in which toothed grab traps are used is inhumane, but the guilty feeling is at once dismissed from the mind by the shallow idea that the condition cannot be remedied and is merely one more necessary evil.

Such, however, is not the case, for there are on the market varieties of humane traps—which experienced trappers have told me are actually better even from the trappers' point of view. It is obvious that the question is difficult—trappers being what they are—but it seems more than likely that the co-ordinated sagacity of the Attorney-General's department, under suitable guidance or impulsion, do something whilst drafting the new laws to dissolve the difficulty and solve the question, possibly by the way of pre-emptive legislation.

I indulge the hope that this may be so.

Montreal
St. John
Halifax
Dawson

In some measure possible from the fact that our new Attorney-General has quite recently taken the plight of our feathered neighbors under the aegis of his official protection during the late cold spell, from which I venture to opine that (political exigencies being of course excepted) his heart is in the "right place"—or nearly so.

I seldom notice a valuable fur coat without visualizing the totality of torture which has gone to the making up of one of these expensive garments, and whilst we cannot expect a lonely trapper grinding out a hard life in the northern wilds to take exactly the same viewpoint as we who breathe the placid atmosphere of Victoria, yet if the way could be opened for him to secure his pelts in better condition and under less revolting methods surely both he and we should be benefited.

T. L. BOYDEN,
Union Building, Victoria.

Filled Doorway

In rebuilding an old house, a charming bookcase was made right in the doorway in the living-room by boarding it up on the back and putting the shelves across. In the next room the boarded door was papered like the room and unnoticeable.

BLOCK MANSON IN APPEAL FOR ELECTION TEST

Speaker Rules Members May
Not Even Hear Motion Read

Scene in House as Ex-Attorney-General Fights For
Hearing

With Liberal members shouting "raw deal," Conservative members calling for order and ex-Attorney-General Manson sticking to his guns tenaciously to the last second, Mr. Speaker Jones yesterday flatly ruled out Mr. Manson's motion for a select committee of the Legislature to investigate the rights to sit in the House of Capt. James Fitzsimmons of Kaslo-Slocan and J. R. Mitchell of Kamloops.

READING REFUSED

Not only did the Speaker rule that the motion could not go on the order paper, but, with Liberal members voicing strenuous protests, he also turned down Mr. Manson's appeal for the motion to be read as the members of the House could vote intelligently upon the point at issue when Mr. Manson had appealed to the House on the Speaker's ruling. The Speaker was sustained by thirty-three to twelve in his ruling that the motion should not go on the order paper. The motion was not read and the only way the matter has come before the House is by Attorney-General Pooley's objections last week to the practice of giving to the press a motion before it has come properly before the House.

When the Speaker rose to announce his ruling yesterday Mr. Manson asked that the point be argued. Both sides should be heard upon it before the ruling was given, he claimed.

"You took the matter under advisement," Mr. Speaker said Mr. Pooley. "There can be no debate after that." Mr. Pooley said Mr. Manson had offered to produce authorities on the subject and had not done so, but Mr. Manson replied that that offer was not on this subject but on the right of a speaker to adjourn the debate and speak again after he had spoken in part.

Claiming the right to inform the House on the matter, as many of them were not familiar with the matter under discussion, Mr. Manson stated he had submitted a notice of motion to the clerk. The clerk had asked that it be to the Speaker, who in turn had decided to withhold it until he had decided whether it should go on the order paper. If the Speaker decided it should go on the order paper, they could then argue whether it was in order or not. If the Speaker said no, he could submit his authorities. If the motion did not go on the papers, they were going behind the back of the House.

MEMBERS NOT INFORMED

"How can the members rule on something when they don't know what it is about?" said Mr. Manson, who made requests for the motion to be read failed.

The Speaker rising again to read his decision, Mr. Manson rose and asked that it be adjourned so that he could produce his authorities. His request was refused.

The Speaker read his decision withholding the motion from the order papers on the ground that no election should be questioned except under Section 191 of the Election Act. This provided for an appeal to the court and said the functions of the court should not be interfered with until all their resources had been tried. Any attempt to bring the matter before the House was therefore out of order, he ruled.

Mr. Manson rose to speak and Mr. Pooley also rose. "Under the Speaker's ruling," said Mr. Pooley, "there can be no debate." The Speaker ruled there could be no debate and there were cries of "Order" as Mr. Manson remained on his feet. The former Attorney-General refused to be shouted down and, when the noise had subsided sufficiently, said he did not propose to debate the ruling. He wanted to offer a personal explanation and claimed the right to do so. "You have entirely misconceived the situation," Mr. Speaker said, "he was proceeding, when there were cries of order again."

PARTING SHOT

Mr. Manson sat down and Mr. Pooley rose. "On a point of order, Mr. Speaker," he said. The member sat down on a point of order. He has therefore now the right to explain. Premier Tolmie informed the House that in ten years in the House of Commons at Ottawa he had never seen such an extraordinary exhibition. "When the Speaker says 'Order' there, there is order," he remarked.

After the appeal against the Speaker's ruling had been rejected and Mr. Manson's request for a select committee had been refused, Mr. Manson gave a parting shot. "I wish to point out," he said, "that the member for Kamloops voted on a matter in which he is personally interested."

Metchisin

Metchisin, Feb. 5.—The regular meeting of the W.A. of St. Mary's Church was held at the Vicarage, but owing to the severe weather the attendance was small.

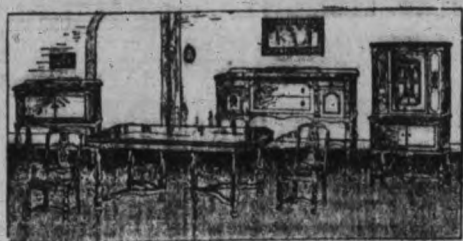

On Tuesday afternoon the members of the Women's Institute who have been taking the course of lessons on glove making, conducted by Mrs. Bond of the Okanagan, met at the home of Mrs. Bolton for the concluding lesson. The class have been well attended and proved to be most successful. Afternoon tea was served and Mrs. Bolton was thanked for her kindness and hospitality, and Mrs. Bond received the thanks of the class for her interesting and expert instruction.

A dance will be held at Metchisin Hall, for the benefit of the hall, on Wednesday, February 6, at 8 p.m.

Feb. 4.—Another cougar was shot in the district last Wednesday, when Alex. Gillespie and Percy Brown of East Sooke dispatched an animal on the road near Mount Madison. The two hunters also killed another cougar but the animal eluded them.

The dance which was to have been held in the Metchisin Hall on Wednesday evening has been postponed.

Orphanage Plans Its Annual Linen Shower in March

The annual linen shower of the Protestant Orphan's Home will be held at the institution on Wednesday, March 13. The preliminary plans were made at the monthly meeting of the ladies' committee yesterday. Mrs. C. H. Walker, the president, being in the chair and the following members present: Mesdames Longstaff, Elliott, Brown, Hughes, Fraser, Sherwood, Shepherd, Cox, Davies, Dillabough, Calvert, Grimston and Dinsmore.

A quiet month was reported and the children were all well. One little boy had gone to the Solarium for treatment and one girl had been admitted. Mrs. Hadland entertained the children with lantern slides.

Visitors for February include Mrs. Cox and Mrs. Davies.

Donations were gratefully acknowledged from: Mr. Elliott, box apples; Mrs. J. Conibear, records and magazines; Mrs. Shields, cakes; Mrs. C. Edwards, clothing and cake; Kumtuku Club, seven books; Mrs. A. Ferguson, clothing; Hillside Bakery, bread and buns; W. H. Wilkerson, magazines; Barbers' Union, hair cuts; McDowell and Mann, cash \$2.20; Dr. Bryant; Colinet and Times.

Guild of Health—Mrs. R. S. Day has returned to the city and will conduct the afternoon Bible class in connection with the Canadian Guild of Health on Friday in the parlor of the Y.W.C.A. at 3 p.m.

WOMAN M.P.'S PAPER HAT IS OUT OF ORDER

British House of Commons Intrigued Over Miss Susan Lawrence's Dilemma

London, Feb. 5. (By George Hambleton, Staff Correspondent of the Canadian Press)—The problem of Miss Susan Lawrence's paper hat arose again in the House of Commons to-day. When answering a question in the House last week, Miss Lawrence, who is a member for East Ham North, found herself handicapped because she had no hat and according to the rules of the House a member must be covered if he wishes to speak after a question has been put.

Miss Lawrence donned a hastily constructed paper hat made from an order paper for her by a fellow Laborite, but the chair declined to recognize she was covered within the meaning of the regulations.

Mainland people registered at the Empress Hotel include Mr. M. S. Kirk of Vancouver and Mr. J. H. Davis of Ladner.

Mr. and Mrs. A. E. Cross, well-known residents of Calgary, are holiday visitors in Victoria for a few days. They are guests at the Empress Hotel.

Miss Daphne Justice has returned to her home in this city after visiting her brother, Mr. Clive Justice of Ganges.

Mr. Victor Harris of the Sun Life Assurance Company of Montreal is spending a short time in Victoria on business. He is registered at the Empress Hotel.

Mr. and Mrs. Frank L. Scott of Ganges, accompanied by Miss Claire Wilson, are over from Salt Spring Island, and spending a week at the Glenelg Hotel.

Mr. W. R. Stone entertained at the tea hour this afternoon at the Empress Hotel. Her guests included the wives of the officers of the garrison at Work Point Barracks.

Rev. W. Simpson of Calgary, who will have charge of the religious education exhibit at the cathedral exhibition to-morrow, has arrived in the city with Mrs. Simpson. They are guests at the Strathcona Hotel.

Mr. W. G. Murray, president of the B.C. Electric Railway Company with headquarters in Vancouver, is a business visitor in Victoria. He is registered at the Empress Hotel, and will be in town several days.

Miss Gladys Bonradelle, who has been spending the last two months as a guest of Mr. and Mrs. C. Tolson, has returned to her home on Salt Spring Island.

The sad news has been received by Mr. A. G. Hunt, 2009 Oak Bay Avenue, of the death on January 29 of his little grandson, Raymond Terence Vivian, aged nine months, youngest son of Mr. and Mrs. R. Vivian of Port Moody, B.C.

Mr. and Mrs. P. M. Ross, Mr. and Mrs. H. N. Baird and Mr. and Mrs. J. D. Comrie are party to Victoria. They are all registered at the Empress Hotel, and will be there several days.

Mrs. James Hood, Mrs. J. W. Saunby, Mrs. J. P. Westman and Mrs. W. H. H. will leave on Wednesday for Vancouver to attend the Provincial Board meeting of the Women's Missionary Society of the United Church.

Mrs. C. B. McAllister of Vancouver, accompanied Captain George Black, M.P., and Mrs. Black, when they left for Ottawa Saturday. She will attend the opening of the Eastern States before returning to the Coast.

Mrs. Lora Baker, provincial field director of the Women's Benefit Association, who is a visitor in the city, is to be guest of honor at a luncheon on Wednesday at the Coffee Shop Cafe, 629 Broughton Street (Stage Depot) at 1.30 o'clock. All members who can possibly attend are requested to do so.

The marriage of Hon. George William Bennett, second son of the Earl and Countess of Tankerville, of Chillingham Castle, Cheshire, Northumberland, and Constance Clare, elder daughter of Dr. and Mrs. C. Wace, of "Pias Panthool," Cobble Hill, Vancouver Island, will take place at St. Peter's, Eaton Square, London, on Tuesday, February 12.

Dr. H. C. Winch, Dr. C. M. Kingston, Dr. J. J. Gledhill and Dr. G. K. Loughlin, all medical members of the Legislature, were the guests of the Victoria Medical Society at its monthly meeting, which took the form of a dinner at the Empress Hotel last night. Following the treatment of gastric ulcers formed the discussion in which the following members of the society took part: Doctors D. M. Baird, T. McPherson, W. E. M. Mitchell, W. P. Walker and W. M. Carr. Over forty members of the society were in attendance.

BIG EXHIBITION OPEN TO-MORROW

The seventieth anniversary exhibition and bazaar will be opened at the Memorial Hall to-morrow, and not to-day, as inadvertently stated yesterday. The various exhibits, which include unique curios from all parts of the world, beautiful gifts of silver and needlework presented for the new cathedral, and many other features will be supplemented by a bazaar, with many attractive wares, and a daily programme of musical and dramatic entertainments and illustrated talks on timely topics.

Victoria West Social—The Men's Association of St. Mary's Church will hold their bridge and five hundred party at the home of Mr. and Mrs. Joshua Smith, Arm Street, on Wednesday evening. There will be prizes and refreshments, and the proceeds will be devoted to the building fund for St. Mary's Church, Victoria West.

Ask for McCoy's Cod Liver Extract Tablets for a couple of months and get enough good healthy flesh on his bones to look like a real man.

Tell him, it's the only way to take those grave-like hollows from his cheeks and neck.

Tell him that thousands of thin, puny, peaked, scrawny men all over America have improved their physical health and appearance and bless the day they first heard of these wonderful sugar coated tablets so full of weight producing and health building essentials.

Ask for McCoy's Cod Liver Extract Tablets, MacFarlane Drug Co., Vancouver Drug Co., Owl Drug Co., and every drugist sells them—60 tablets—60 cents—economy size \$1. Almost any thin man or woman can put on five pounds of healthy flesh in 30 days or your money will be refunded.

One woman put on 15 pounds in six weeks. Children grow robust, and strong—feeble old people feel younger in a few weeks.

Miss Doris Plimley, Miss Sheila Gillespie and Miss Molly Guernsey of Victoria spent the week-end in Vancouver.

Mrs. William Georgeason of Oak Bay is spending a few days with her son and daughter-in-law, Mr. and Mrs. Alan Georgeason, Metchoin.

Mr. E. H. James, well-known resident of Montreal, is a business visitor in Victoria for a few days, and is staying at the Empress Hotel.

Among the many guests at the Empress Hotel supper dance in the grill-room on Saturday night were Major and Mrs. P. Hennessey, Major and Mrs. Gibson, Mr. and Mrs. Harry Leach, Mr. and Mrs. H. Patterson, Mr. and Mrs. C. E. Wilson, General Noel Money, Mr. B. Ziegler, Mr. and Mrs. Allen, Mr. and Mrs. H. M. McGivern, Mr. and Mrs. L. C. Boyd, Miss Vivian Matson, Miss C. Leeson, Miss Marion Wilson, Mrs. Paulbrick, Mr. T. E. Lammiman, Miss Helen Fowler, Miss Helen Nicholson, Miss Helen Lindsay, Miss Sybil Fraser, Dr. and Mrs. Riddewood, Miss Janet Lang, Lieut. Roy Messers, Desbarat, Francis Mathews, Edgar Woods, John Hulbert, Jack Copeman, Florence Oates, Helen and Nora Wilson, Miss Phyllis Barton, Bill Dunbar and Capt. McDonald.

Students of Victoria College will be guests of the University of British Columbia on Friday, Saturday and Sunday, when they will pay a "return invasion" visit. Over 100 students will arrive on Friday evening, and will be met by various students who will escort them to their hotels. The official hosts for the week-end will be Students' Council, members of executive of Arts '21 and '22, and the Victoria students attending university here.

Friday evening basketball games followed by a dance have been arranged for them at the Normal gymnasium. The next morning they will be taken on a tour of inspection of the University of British Columbia campus, and athletic grounds at Brockton Point will be the centre of interest in the afternoon. Saturday evening the invaders will be guests of the freshmen class in a dance at Lester Court, and the following day they will return to Victoria on the morning boat.

On February 2 a wedding was solemnized at the residence of the Rev. Dr. Wilson, Pemberton Road, when Miss Catherine (Katie) Jones, youngest daughter of Mrs. Cecelia Jones, 36 Menzies Street, was united in marriage to Mr. Archibald Logie, elder son of Mr. and Mrs. Logie, of Westray, Scotland.

The bride, who was given in marriage by her mother, looked very charming in a pink silk georgette dress with a wreath of orange blossoms, her bridal bouquet was of pink roses and maidenhair fern. The groom wore a tuxedo, and was accompanied by his best man, Mr. Richard Jones, brother of the bride. Following the ceremony a reception was held at the home of the bride's mother, where Mrs. Woodley assisted Mrs. Jones in receiving the guests. Refreshments were arranged by Mrs. Gatehouse and Miss Morley. The happy couple left on the afternoon boat for Sooke, where the bride is spending a few days with her parents.

Miss P. I. Hatch, K.I.H., an outstanding missionary from India, will arrive in Victoria on Saturday, and while here will give two addresses on her work among the lepers of India. For forty-three years Miss Hatch has been ministering to the lepers at the Mission of Ramachandrapuram, India, and is her way back to her days in this service. For her work and bravery, the British Government gave her the decoration, the Kaiser-i-Hind medal.

Considerable interest is being shown by social groups on Vancouver Island and at other points on the mainland in the approaching production of "Whoop-la" by the Junior Service Club of Vancouver. Among those who have already signified their intention of going over to Vancouver from Victoria for the performances are His Honor the Lieutenant-Governor and Mrs. Mackenzie, who will be the guests of Mrs. B. T. Rogers during their stay in the city. Mr. and Mrs. Maurice Wingfield and Mrs. Selden Humphreys will visit Mrs. W. F. Brougham, and Mr. and Mrs. Jack Patterson will be the guests of Mrs. A. E. Griffin. Coming up from Portland will be Mr. and Mrs. Read Ireland.

Refreshments were arranged by Mrs. Gatehouse and Miss Morley. The happy couple left on the afternoon boat for Sooke, where the bride is spending a few days with her parents.

On February 2 a wedding was solemnized at the residence of the Rev. Dr. Wilson, Pemberton Road, when Miss Catherine (Katie) Jones, youngest daughter of Mrs. Cecelia Jones, 36 Menzies Street, was united in marriage to Mr. Archibald Logie, elder son of Mr. and Mrs. Logie, of Westray, Scotland.

The bride, who was given in marriage by her mother, looked very charming in a pink silk georgette dress with a wreath of orange blossoms, her bridal bouquet was of pink roses and maidenhair fern. The groom wore a tuxedo, and was accompanied by his best man, Mr. Richard Jones, brother of the bride. Following the ceremony a reception was held at the home of the bride's mother, where Mrs. Woodley assisted Mrs. Jones in receiving the guests. Refreshments were arranged by Mrs. Gatehouse and Miss Morley. The happy couple left on the afternoon boat for Sooke, where the bride is spending a few days with her parents.

MRS. SYMONS NEW REGENT OF CHAPTER

Florence Nightingale I.O.D.E. Review Year's Work at T.B. Ward; Splendid Reports

Mrs. Kylie Symons was elected regent of the Florence Nightingale Chapter, I.O.D.E., at its annual meeting held in the Y.W.C.A. yesterday afternoon, succeeding Mrs. Fred J. Hall, who retired from that office after capably filling it for the last three years. Mrs. Hall was tendered a hearty vote of thanks for her devoted, untiring services in office and was unanimously elected honorary regent of the chapter, and appointed the chapter's delegate to the Provincial Chapter meeting in Vancouver.

Other officers elected were: First vice-regent, Mrs. Hyslop; second vice-regent, Mrs. Baker; treasurer, Mrs. H. Catterall; secretary, Mrs. George Melior; Echoes secretary, Mrs. Middleton; standard bearer, Mrs. Lucas. Mrs. Symons was elected the chapter's delegate to the Provincial Chapter meeting in Vancouver.

WORK FOR T.B. WARD

Mrs. Melior, in presenting the seventeenth annual report of the chapter, noted that a very successful and harmonious year's work had been accomplished. Mesdames Jones, Catterall and Hudson had been active in serving teas and special treats on holidays, and providing for little comforts for the patients of the tubercular ward at the Jubilee Hospital, which is the chapter's special care. Among the gifts of the chapter to the ward was a radio, books for the library, repairing of chairs, dressing gowns, two dozen suits of pyjamas, crockery and linen for trays, in addition to the usual Christmas dinner and tree.

OTHER REPORTS

Mrs. Symons reported for the Girl Guides. Mrs. Middleton for the Local Council of Women and Echoes. Mrs. Eve, for the maternity committee, reported one layette given out last month. Mrs. Hudson, in charge of the Solarium, to which it has given a cot; Mrs. Hyslop reported for soldiers' graves committee,

Youngsters Find Wealth at Home

"Acres of Diamonds Dug Up Under Uncle Sam's Guidance"

MANY TREASURES AT MEMORIAL HALL EXHIBIT

Volunteers Busy Placing Exhibits and Wares Ready For Opening To-morrow

A truly remarkable collection of exhibits, including articles of rare beauty and value and curios from many parts of the world, will be seen by those who visit the Seventieth Anniversary Exhibition and Bazaar from the time of its opening to-morrow afternoon at 2.30 o'clock. The exhibition will remain open to the public for four afternoons and evenings, closing on Saturday at 10 p.m.

All this morning, the Indian exhibit was being arranged by Rev. A. W. Corker, Rev. F. Conley and Rev. Canon Stocken, assisted by a group of young people. Miss Josephine Crease and a number of ladies have gathered a unique collection of local historical interest to depict the early days in Victoria and the Island. Elsewhere in the Memorial Hall, volunteers were busy putting on the finishing touches to the arrangement of exhibits that will be found in every room of the building.

CHANGES IN PROGRAMME

Last-minute changes in the programme, inevitable in such an extensive undertaking, were announced this morning, when it was stated that the first performance of the "Tiny Tots in Training" would take place to-morrow afternoon at 3.15 p.m., instead of at 4.15 p.m. as originally planned. A dozen little children, of ages four to seven years, carefully rehearsed yesterday afternoon a programme consisting of action songs, dramatized recitations and children's hymns. The children have been trained by Mrs. A. R. Merris.

The illustrated talk on the work of the Girl Guides by Mrs. Alan B. Morrell will be given at 4.15 p.m. instead of at 5.15 p.m.

BAZAAR IN GYMNASIUM

Articles from many parts of the Island and Gulf Islands continued to arrive to-day for the bazaar, which will be found in the gymnasium. Among this morning's deliveries were two silk bags, one made by Betty Lloyd, aged 3½ years, and the other by Vivian Lloyd, aged six years, both residents of Comox.

The gymnasium has been prettily decorated by the young people's committee, and a dozen stalls have been arranged around the walls. A large refreshment room, for the serving of tea and light supper, occupies one end of the hall.

All proceeds from the exhibition and bazaar will be given to the fund for completing the baptistry, memorial windows and "Children's Corner" in the new cathedral.

Dairying and other farm activities for the boys, cooking and other housework for the girls, as shown here, make 4-H club members leaders in their home counties.

The legend, "Acres of Diamonds," has been dramatized by the office of co-operative extension work, United States Department of Agriculture, to emphasize eight striking examples of boys and girls who found wealth in their agricultural club activities.

Unlike the ancient Persian who refused to search for diamonds on his own farm only to die in starvation in a strange land, these boys and girls discovered "acres of diamonds" in poultry yards, in cow lots, in gardens and in piggeries.

Sherman Ives, Frances Smith, Don Shepard, Blanch Keller, Guy McReynolds, Kenneth Hinshaw, Mary Borson and Hilmer Carlson have remained on the soil they till and found wealth. In their kitchens, calf lots, pastures, woodlots and poultry houses, they have not only discovered "acres of diamonds" but found that durable satisfaction which comes from doing a pleasure-giving task well.

The Department of Agriculture immortalizes their names and examples in the following brief but impressive narratives:

(1) Sherman Ives of Connecticut was a member of the Goshen poultry club for several years. To earn his way through the state agricultural college, he took his flock of poultry to college with him and cared for them there. Following graduation he returned to the home farm, went into partnership with his father and later bought the farm. He is now married, is making the farm pay and is a local club leader.

(2) Frances Smith of Oklahoma has been a 4-H club member for eight years, doing poultry, crops, canning, clothing, cooking and room improvement work. She has made 278 exhibits, given thirty-five public demonstrations, taken part in twenty-two judging contests, and culled over 2,000 chickens. First as secretary, then as president of her local club she helped organize other clubs in her township. Later she assisted the home demonstration agent in organizing clubs throughout the county. Won recognition at the county and state fairs; scholarships at the agricultural college, and in 1925 won the Moses Leadership Trophy open to 4-H club members throughout the United States.

(3) Don Shepard of Michigan is a short-horn breeder. At fifteen he began his club work with two calves. Thereafter his herd increased and improved to the extent that his exhibit winnings are now putting him through his state agricultural college. His county short-horn breeders' association has elected him secretary.

(4) Blanch Keller of Minnesota has been in club work since 1917. She won honors in bread club work at home and in county, district, state and interstate fairs. Later, while teaching school, she was local club leader and has since been local leader for three years. She has trained ten demonstration teams and 205 individual demonstrators. Best of all, she "sold" the art

LEADER IN CLUB WORK

(5) Guy McReynolds of Nebraska has been in livestock club work since 1920. Beginning as a pig-club member he has developed the farm herd of hogs and is now in partnership with his father. In 1924 he and other members of his club vaccinated over 1,000 hogs in his county.

(6) Kenneth Hinshaw of Washington started his club work ten years ago and has been a club member or local leader ever since. He brought some of the first purebred stock into his county. Ninety per cent of the purebred stock now in his county has been placed directly by club members. In 1924 he took the first carload of show stock ever sent out by his county on a show circuit of eight fairs.

(7) The story of Mary Borson of Nebraska tells that "Acres of Diamonds" may be found in a professional way through 4-H club work. As a member of a 4-H club from 1914 to 1921 her achievements won recognition through public demonstrations. As a local leader she told the story of club work throughout her home county. Later she became assistant state club leader.

(8) Hilmer Carlson of Minnesota began in 1915 to make his club work fit into the work on his father's farm. The calf which he won through his club work was the first purebred animal on the farm. He now owns sixteen purebred animals and is in partnership with his father.

of bread baking to her own neighborhood.

START PUREBRED STOCK

(9) Hilmer Carlson of Minnesota began in 1915 to make his club work fit into the work on his father's farm. The calf which he won through his club work was the first purebred animal on the farm. He now owns sixteen purebred animals and is in partnership with his father.

"200 Years of Excellence"

ESQUIMALT LODGE HEAR FINE REPORTS

Annual Meeting Held Yesterday at Home of Regent, Mrs. C. P. Hill

At the annual meeting of the Esquimalt Chapter, I.O.D.E., held yesterday afternoon at "Hillhaven," the residence of the regent, Mrs. C. P. Hill, the chapter reported a very successful year.

REGENT'S ADDRESS

In her presidential address Mrs. Hill referred to the loss the chapter had suffered in the passing of their late regent, Mrs. Henry Croft, "for it is as regret, rather than as first vice-regent that we always think of her, and today we pay our tribute of love and gratitude to one who, though through ill health unable to be so active during the last few years, yet showed her interest in the chapter to the end of her life in many practical ways."

Reviewing the year's activities the regent felt the chapter was to be congratulated on the work accomplished and asked the members to slacken during the coming months "for in peace time there is still work to be done in educating the young people and the following: Girl Guides, Traveler's Aid, work of the order in India, Duchess of Connaught's Hostel, Goodwin Defence Fund. The flag for the Esquimalt war memorial had been ordered and a pair of brass candlesticks presented to St. Paul's Garrison Church. A subscription had been made towards a building to house the Esquimalt Scouts and Cubs and to the Public Health Centre. Help was given in the packing of hampers at Christmas as well as a donation from the chapter and gifts from individual members.

MANY DONATIONS

The secretary's report showed that the chapter had taken part in "ceremonies held by the order, being present with their standard on all occasions. Donations had been made to the following: Girl Guides, Traveler's Aid, work of the order in India, Duchess of Connaught's Hostel, Goodwin Defence Fund. The flag for the Esquimalt war memorial had been ordered and a pair of brass candlesticks presented to St. Paul's Garrison Church. A subscription had been made towards a building to house the Esquimalt Scouts and Cubs and to the Public Health Centre. Help was given in the packing of hampers at Christmas as well as a donation from the chapter and gifts from individual members.

BURIALS GIVEN

The chapter had continued to show interest in secondary education work reported Mrs. Sinden, convener, and in addition to the monthly donation had the satisfaction of presenting a bursary to Robert Irving, a former bursary holder, as encouragement for heading his class at Midsummer and of assisting another former bursary holder, now a successful teacher, in the completion of her course for a higher certificate. A loan of \$100 is also being made to another young girl to enable her to take a Normal course. Forty-six calendars had been purchased by the chapter.

MRS. QUINN REPORTED

Mrs. Quinn reported that thirty-seven graves of soldiers and sailors had been decorated in the Esquimalt Naval and Military Cemetery at Esater and on Armistice Day, also the memorial tablet at St. Paul's Garrison Church and the Esquimalt Child Hygiene Council. Care of teeth, feet, personal cleanliness, maintenance, well-balanced meals, prevention of tuberculosis, and

CHILD WELFARE

Mrs. Booth reported that child welfare had been the subject of many meetings held by the Esquimalt Child Hygiene Council. Care of teeth, feet, personal cleanliness, maintenance, well-balanced meals, prevention of tuberculosis, and

CHILD WELFARE

Mrs. Booth reported that child welfare had been the subject of many meetings held by the Esquimalt Child Hygiene Council. Care of teeth, feet, personal cleanliness, maintenance, well-balanced meals, prevention of tuberculosis, and

contagious diseases were among the subjects of addresses.

AIDS GIRL GUIDES

Mrs. E. P. Matheson reported that the Girl Guide company in Esquimalt now had thirty members and with the Brownie Pack is doing very good work. Mrs. Poyntz gave a brief Echoes report and the treasurer's report given by Mrs. Ward

English Cricketers Spurt In Second Innings

Hammond Hangs Up Century As Touring Eleven Bat Again

After Australians Gather Margin in First Innings, Fine Partnership of Jardine and Hammond Results in Good Score for England; Hammond Has Second Century in This Year's Matches; Hobbs and Sutcliffe Go Out Quickly at Start But Other Two Make Gallant Stand

Adelaide, Australia, Feb. 5 (Canadian Press Cable)—A century by Wally Hammond, his second in the fourth cricket test match being played here between England and Australia, enabled the tourists to redeem a bad situation when Jack Hobbs and H. Sutcliffe were cheaply disposed of in their second innings. Hammond was not out with 105 at the close of play to-day and D. R. Jardine, leading English amateur cricketer, had scored 73 not out. Scores were: Australia first innings, 369; England 334 and 206 for two wickets.

LEAFS' FORWARD HEADS SCORERS

Irvin Bailey Goes to Top of Canadian Hockey Section in Goal Getting

Montreal, Feb. 5.—The sensational upward thrust of the Toronto Maple Leafs last week-end, which swept them into a commanding position in the steady progress of the Canadian hockey section, is all reflected in the N.H.L. scoring averages issued last night. Irvin Bailey of the Maple Leafs broke the tie for the leadership of the Canadian section as a result of his week-end feats, while two of the Rangers' star forwards, Bill Cook and Frank Boucher, are tied for first position in the American section. Bailey drew away from his closest rival, Nels Stewart, in decisive fashion. He has now scored sixteen goals, the same number as Stewart, and has had eight assists against Stewart's five, for a total of twenty-four points. Andy Blair of the Leafs is tied for third place with Hooley Smith of Montreal. COOK PICKS CORNERS

Bill Cook has scored more goals than any player in the American section, twelve in all, with six assists, while Boucher has had seven goals and eleven assists. Carson Cooper of Detroit holds second position, while two Boston players, Harry Oliver and Cooney W. Eiland, are tied for third. Lionel Conacher, robust captain of the Americans, during the week, increased the total of the minutes he has spent on the penalty bench to 99. Red Dutton of Montreal is ten minutes behind the leader.

HOOP TITLES AT STAKE IN CITY LOOP

College, Fidelis and Keating Out For Division Championship To-morrow Night

Three Important Games Are Carded at Y.M.C.A.; First Encounter at 7.30 o'Clock

Determined to take the championships of their respective divisions without further delay, Victoria College Intermediate "A" men's, Fidelis ladies' "B" and Keating senior "B" men's squads will oppose the Crescents, Red Birds and Victoria Machinery Dept respectively at the Y.M.C.A. to-morrow evening.

A victory for each of the first three teams will give them the city championships and entitle them to play the Up-Island champions for the right to meet the Mainland titelholders. However, should these quintettes go down to defeat, another game against the same rivals will be necessary to decide the issue.

HOT AFTER CUP
College will clash with the Crescents in the first game at 7.30 o'clock, and if the school is successful the Kennedy Cup will find a resting place in the blue-an-gold boys' headquarters. The Collegians have been working smoothly throughout the season and expect to come through with a win in the crucial game. Crescents have proved to be hoopers of no mean ability and will undoubtedly give their opponents a run for their money.

In the second game the Fidelis will do all in their power to secure the Pendray trophy. The Fidelis are favored to win, but unless the Red Birds fall far below their usual standard the league leaders should be forced to use all their ability to gain a decision over the fast-moving birds. The final game will decide the issue between the Y.M.C.A. and Keating. At present these squads are leading the men's senior "B" league and should give a good exhibition of basketball when they meet. Allan Le Marquand will probably referee all games.

Staford, Ont., Feb. 5.—The Millionaires, formerly of Toronto, defeated Hamilton 3-1 in a Cup hockey game here last night.

STRIBLING MUST STAY ON GROUND

No Flying For Macon Heavyweight Is Edict of Promoter Dempsey

Battle Over Referees For February 27 Heavy Mix-up Gains Impetus

Miami, Fla., Feb. 5.—Young Stribling does not expect to fly to-day. Nor to-morrow. Nor any other day until he has kept his February 27 fistie engagement with Jack Sharkey in Flamingo Arena.

Promoter Jack Dempsey is determined that flying shall have no place on the conditioning programme of the Macon boxer-aviator. He is so determined that he has stopped asking the Georgian to stay on the ground and has filed injunction proceedings to keep Stribling out of the air.

HAS PLANE
Young Stribling purchased an airplane several years ago and has hoped about the country in it for his various matches.

Stribling to-day was prepared for his usual two-and-one-half miles of roadwork, while his opponent expected to put in a hard round of posing for cameramen. Sharkey has been invited to go through an exhibition with his sparring partners in Tampa Friday night, and Dempsey may accompany him to the West Coast city.

BATTLE OVER REFEE
The manager's battle over the referees began yesterday. Dempsey has advised "Pa" Stribling and Johnny Buckley, managers of the principals that if no selection has been made a week before the fight, he will choose the referee himself.

Among those already mentioned for the job are Dave Miller, and Walter Eckersall, Chicago; Ed Dickerson, Grand Rapids, Mich.; Tom Reilly, Philadelphia; Lou Magnolia and Jack O'Sullivan, New York; Max Hinkle, Cleveland; Slim McClelland, Detroit; and two unnamed Massachusetts referees.

BILL MEHLHORN

"WILD BILL" PUTS OLD MAN PAR ON SHELF, WINS TITLE

In Play-off For South Central Open, Mehlhorn Is Easy Winner

Hot Springs, Ark., Feb. 5.—"Wild Bill" Mehlhorn, badazzler of the golf world during the last fortnight, added a new lustre to his record yesterday by winning the South Central Open, his third successive major winter tournament.

After tying Bobby Cruikshank, veteran Scot, and Horton Smith, young Joplin, Mo., professional, with a seventy-two hole card of 290 Sunday, Mehlhorn came back to repulse them at every turn yesterday in an eighteen-hole play-off for the title. With 36-34-70, two below par, he was two strokes ahead of Smith and six better than Cruikshank.

Cruikshank broke in the outgoing nine. Playing even through the sixth, he took a four, one over regular, on the short seventh when he putted. At number nine he had a suited tee shot and a hard approach. From then on he was never really a serious threat to overtake Mehlhorn, while Smith's chances faded after the twelfth hole. The weather was fine.

SOCCER TEAMS RESUME PLAY

Three Games Scheduled For Saturday If Weather and Grounds Are Suitable

Saanich Thistles are scheduled to meet Esquimalt at the Royal Athletic Park, while Victoria West will clash with the Five Cs at Beacon Hill, and Victoria City will tackle the West-holmes at Central Park, when play is resumed in the Combination Cup Series of the Victoria and District Football League on Saturday. All arrangements relating to games will naturally depend upon the weather, but if the grounds are at all playable, the teams will be out to continue the series which was interrupted by the snow two weeks ago. The standard of play is expected to be good despite the enforced lay-off, and some close games are looked for.

Brilliant Hockey Displayed As Esks Go Under to Lions

Three Goals in Second Canto Spell Defeat for "Porky" Levine and His Teammates and Seattle Suffers First Loss in Five Starts; Speedy Play Features Game Throughout; Brennan Pulls a New One

Vancouver, Feb. 5.—The Vancouver Lions strengthened their position at the top of the Pacific Coast League here last night at the expense of the Seattle Eskimos. The final count was 3-0 and the game was featured by some of the best hockey of the year, as far as local games are concerned. All three goals were scored in the second period, during which the teams traveled at top speed most of the time.

It was Seattle's first loss in five starts. One of the features of the contest was the initial appearance here of "Porky" Levine, the new guardian of the Seattle cage.

ALL HIS TRICKS
Levine left on the midnight boat for Victoria with his teammates, carrying a very heavy respect for the ability of the Lions when they are going at their best. Three scores went past him, with another in doubt, but he stopped scores of shots during the evening, lying prone on the ice, kicking them out and in fact pulling all the latest tricks of the eastern leagues. At one time he and his net were carried to the ice as the Lions came down three abreast.

Play was fairly fast, and though nearly a dozen penalties were handed out, none of them were for serious offences. In the last period the Lions were deprived of both of their defence men at one time, a situation which Seattle attempted to use in an effort to beat young Jackson, but luck and sterling play prevented a score.

LEVINE IN HOT CORNER
Half-way through the opening period the Lions caught the Esks temporarily disorganized and penned them behind their own blue line for nearly five minutes, meanwhile, testing Levine from every angle. In the second period Brennan, the Lion's best defence star, scored the second counter, batting the puck into the cage as he fell. Jerwa got the opened on a rebound from Somers, while Beatty notched the third, after the Lions had sent in two fast ones on the Seattle cage.

Seattle—Levine, Johansson, Borland, Browne, Overand, Walker, Harris, Lowe, Daly, Sutherland.

Vancouver—Jackson, Brennan, Jerwa, Somers, Sanderson, Phillips, Beatty, McAdam, Arnott, Cummings.

Referee—Ion.

Summary—First period, no score. Second period, 1. Vancouver, Jerwa, 4:24; 2. Vancouver, Brennan, 4:42; 3. Vancouver, Beatty, 7:49. Third period, no score.

Penalties—First period: Somers, Overand, Daly and Borland. Second period: Borland. Third period: Brennan, Overand, Jerwa, Beatty, Browne and Jerwa.

Saanich Thistles are scheduled to meet Esquimalt at the Royal Athletic Park, while Victoria West will clash with the Five Cs at Beacon Hill, and Victoria City will tackle the West-holmes at Central Park, when play is resumed in the Combination Cup Series of the Victoria and District Football League on Saturday. All arrangements relating to games will naturally depend upon the weather, but if the grounds are at all playable, the teams will be out to continue the series which was interrupted by the snow two weeks ago.

The standard of play is expected to be good despite the enforced lay-off, and some close games are looked for.

Sonnenberg to Fight For His Favorite Hold

Chicago, Feb. 5.—Gus Sonnenberg, the newly-crowned heavyweight wrestling champion, will attempt to convince the Illinois Athletic Commission that his "tieding tackle" hold is a legitimate one Friday night. The commission has questioned his use of the hold which defeated "Strangler" Lewis for the title.

WINS OVER CANTONWINE
New York, Feb. 5.—Making his first appearance in New York, "Dynamite" Gus Sonnenberg, recently crowned heavyweight wrestling champion of the world, threw Howard Cantonwine in thirty-seven minutes fifty-three seconds of their match at Madison Square Garden last night.

NEW JURORS' ACT
Toronto, Feb. 5.—A Government measure to amend the Jurors' Act, providing that persons of sixty-five and under may act on juries was given first reading by the Ontario Legislature yesterday. The present age limit is sixty years.

MUST NOT FLY

"YOUNG" STRIBLING

The Georgia heavyweight, who is booked to meet Jack Sharkey at Miami on February 27, Promoter Jack Dempsey is looking after the welfare of the Georgia boy by seeking an injunction to restrain him from using his private aeroplane before the fight.

JAMES ISLANDERS GRAB HOOP TITLE IN FINE VICTORY

Brilliant Finish By Fourer Hoopsters Fails to Cut Down Big Margin

Early Lead Piled Up By Island Five Makes Senior "C" Honors Safe

James Island are to-day champions of the senior "C" division of the City Basketball League after a 31-26 victory over the Fourer hoopsters at the Centennial gymnasium last night. The Islanders gained an early lead in the initial period, and scored basket for basket with their opponents in the second half. Close play was the game.

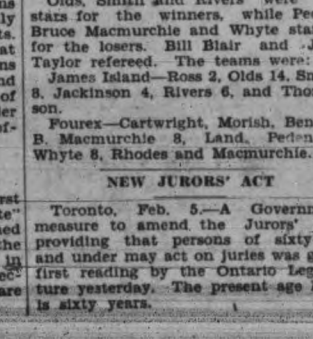

James Island opened fast, with Olds scoring baskets in quick succession. Heavy checking featured this period of the game, and the scoring was not fast. The Island crew were holding a 16-8 lead at the rest interval.

LEAD IS CUT
In the second half James Island increased their lead on baskets by Olds, Smith and Rivers. With five minutes to go the Islanders held a fourteen point lead, but Peden, Bruce Macmurchie and Whyte cut the lead down to six points, then "Curly" Ross took time out. The winners scored one more basket after this rest, and finished with a safe lead.

Olds, Smith and Rivers were the stars for the winners, while Peden, Bruce Macmurchie and Whyte starred for the losers. Bill Blair and Jack Taylor refereed. The teams were: James Island—Ross 2, Olds 14, Smith 8, Jackman 4, Rivers 6, and Thompson.

Fourer—Cartwright, Moriah, Benson, B. Macmurchie 8, Land, Peden 10, Whyte 8, Rhodes and Macmurchie.

FOXY PHANN
Reason with your children—any boy prefers the tooth-brush to the hair-brush

Victoria Fans Meet "Porky" Levine For First Time To-night

Seattle's Reputed "Horizontal Goalie" Will Perform for Local Hockey Followers When Esks and Cubs Mix at Arena; Victoria Squad at Full Strength for Tilt Which Will Give Them Chance to Overhaul Seattle and Portland in Standings

"Porky" Levine, the only Jewish goalie in the game, and his reputed "horizontalism" will undoubtedly be the chief attraction for Victoria hockey fans at the Willows Arena to-night. Mr. Levine comes to Victoria with well-considered advance notices which he will have to live up to if he hopes to get in good with the local puck rooters.

With a full strength Cub line-up trying to pick the very few corners Levine is supposed to sometimes leave between the pipes, the Seattle goal guardian will have a perfect setting for a dazzling performance, according to Coach Cliff O'Meara of the Victoria squad. The Vancouver Lions found three holes in his armor last night—and if he hasn't plugged these wounds up tight, the Cubs hope to feed him the same sort of stuff to-night.

TRIPLE TIE
A triple tie for the dubious cellar honors will be the situation if the Cubs can put over a victory this evening. If not it means the Eskimos shoot out in front of the Capitals and Rose City squads whether they get a win or a draw. The Cubs figure they've simply got to take both points because next week they are in for a couple of doses of the Lions' medicine, which most of the teams have not found very appetizing.

In addition to Levine, an ex-big leaguer, Rennika, will make his first appearance here in the togethery of the Eskimos. Rennika formerly played in the Western Hockey League, and local fans are acquainted with his style.

Back on the Victoria line-up will be Paul Runge, whose hand, broken in a Portland game not long ago, has mended nicely. Cliff O'Meara, who was out of the game during the Cubs' swing around the southern circuit last week, will also be ready to go.

The teams will be: Victoria—Robertson, Redpath, Kenny, O'Meara, Evans, Kelly, H. Runge, Leacock, Osmundsen, Pridham and P. Runge.

Tied for third place in the International group, Montreal Maroons, and Toronto Maple Leafs, will try to break their deadlock against the New York Rangers and Pittsburgh.

The Maroons are in a bad spot, faced with the necessity of doing as well against the world's champions as Toronto does against the fourth-place team in the American group.

TOUGH FOR AMERICANS
New York Americans can pull up close to Canadians of Montreal with a victory to-night, but it will be a tough struggle for the Americans. Their opponents are the Boston Bruins whose record winning streak was broken only last Saturday by Toronto.

The Americans have lost their last three games. The Detroit Cougars will try to add a few points to their total by subduing Miami on February 27.

The Hawks have not won a game since the end of December.

CANADIAN PROFESSIONAL LEAGUE
Toronto, Feb. 5.—The battle that Detroit and Windsor are waging in the Canadian Professional Hockey League—Detroit striving to hold their lead and Windsor straining to overtake them—continued last night when the Windsor defeated London 3-1, and again came within four points of the leaders.

Frank Carson's two goals in the third period gave Windsor their victory over the Panthers.

DEATH CLAIMS
Head of York Race Committee

York, Eng., Feb. 5.—James Melrose died here yesterday at the age of 100. He often said he had been refused a policy by an insurance company as a "bad risk" early in life.

For the last sixty years he had been chairman of the York Race Committee and "Gimcrack" dinner, since 1875, this being a notable function in honor of a famous race horse of years ago. He was Lord Mayor of York in 1866 and 1877.

CARPET BOWLING
Results of games played last week in the Capital City and District Carpet Bowling League follow:

Division I—Willows "B" 17, Willows Park 12.

Division II, Section "A"—A.O.F. "A" 19, L.O.A. "A" 12; James Bay "B" 16, Lake Hill "B" 17.

Division II, Section "B"—A.O.F. "B" 16, A.O.F. "C" 17; L.O.A. "B" 8, Lake Hill "C" 25.

Secretaries are requested to arrange postponed games as soon as possible.

St. Paul, Feb. 5.—St. Paul defeated Minneapolis here last night 6-1 in a Twin Cities Trophy hockey game. Both teams are members of the American Hockey Association but the game did not count in the league standings.

Laundering baby's things

Gather up the precious things that baby wears and drop them in the Beatty Washer. Leave the woollen things just FIVE minutes in the Beatty, the bedding and the flannel and cotton pieces seven or eight minutes, and the rompers just ten or twelve.

Never mind rubbing anything, and don't bother to boil. The steam-tight lid keeps the water hot enough to do, and the fast working action of the washer takes the clothes through the water so thoroughly.

Rinse the things as often as you wish to keep them a good color. The outfit we supply includes a bench on wheels, tubs and automatic tub drainer, so you can have lots of water without work. The electric wringer will squeeze the water out of a tubful of things in less than a minute, and wringing is easy.

Guard his health

It is so easy to keep baby plentifully supplied with clean things when you have a Beatty Washer to help you. Properly washed to keep them fragrantly clean, properly rinsed so that they will not chafe his skin!

Woollen things you can do by themselves in water of suitable temperature, not too warm. Soft homespun things and fuzzy caps and sweaters! Mitts and leggings which loving fingers fashioned. Blankets for baby's bed. Wash them in the Beatty and you will keep them as cute and pretty as the day they were made.

When you think of the innumerable little garments that baby uses, things that no mother would trust outside the home to do, you will consider the Beatty Electric Washer a blessing, even if there was no other washing to do.

FACTORY SALE

OF *Beatty* HOME LAUNDERING OUTFITS

4 LAUNDRY PIECES INCLUDED FREE

In this sale we feature a complete outfit for laundering at home. This outfit makes not only the washing easy, but the wringing, rinsing and bluing. There is equipment for filling rinse tubs and emptying them, and handling water and clothes without effort or muss. Even the drying and ironing is simplified by the thoughtfulness of these Canadian artisans who have labored to give you this complete equipment for the price of a washing machine alone.

A few of the pieces are illustrated and the complete list appears on the other side of the page. Substantial pieces, all of them, they are made for a life-time's service. This complete outfit is a Canadian idea exclusively, originating in our own factory, and in no other in all the world is there anything offered like it.

Beatty Electric Washer \$179

And Complete Home Laundering Outfit

ONLY \$1.00 DOWN

TERMS \$2.25 A WEEK

NO INTEREST ADDED

4 EXTRA PIECES FREE

Trade in Your Old Washing Machine

Washes faster and cleaner than any other electric washer. You don't need to rub anything. Keeps the clothes a lovely color, even without boiling. Has plenty of power to handle two batches of clothes—wring one and wash the other at the same time. Wringer is particularly convenient and safe, being equipped with a quick release which stops the rolls turning when it releases them.

Duco finish, nickel trimmings, standard capacity, compact design and fully equipped, as illustrated.

Made in the Biggest End of the Continent At Fergus, Ont., Canada, by Beatty Bros. Limited

CHOOSE ANY FOUR FROM LIST BELOW

There are ten laundry pieces to choose from. Select the ones you need the most. Choose any four on the list below.

1. Folding Tub Bench
2. Square Rinse Tub
3. Tub Drainer and Hose
4. Hamper for soiled linen.
5. Clothes Basket
6. Folding Ironing Table
7. Electric Iron
8. Folding Clothes Rack
9. Elevating Ceiling Dryer
10. Step Ladder

The Beatty Ceiling Dryer and the Beatty Clothes Rack are most appreciated in winter time for drying the heavy winter woollens. The Ceiling Dryer is supplied with ropes and pulleys for elevating, and may be put up in kitchen, basement, attic or closed-in verandah.

The wash-day equipment supplied with Beatty Electric Washers, if valued at current retail prices, would amount to more than a million dollars in a year. This includes merely the extra pieces given.

Beatty WOOD TUB ELECTRIC WASHER \$139

Only \$1.00 Down — Terms \$1.45 a Week — No Interest Added — 4 Extra Pieces Free — Trade in Your Old Washer on It

Latest type of washing action; is fast and clean. Equipped with our very best wringer. Extra heavy B.C. fir tub. A sturdy, practical machine at wonderful terms, and a magnificent bargain at the price.

BARGAIN WHITE CAP ELECTRIC WASHER \$95

Only \$1.00 Down — Terms \$1.25 a Week — No Interest Added — 4 Extra Pieces Free

Rebuilt and refinished, a machine of our own make and guaranteed like new.

We have bargain machines at all prices from \$59 to \$169. Come in and look them over.

JIM JEFFRIES

His Own Story

As Told to HUGH FULLERTON

CHAPTER XXVI (Continued)

The hunting was marvelous. It was virgin country, in which no axe had spoiled the beauty, and in which a gun seldom had been fired, an ideal country for a pioneer.

In that camp I killed the largest lion I ever saw. It was raining one morning, so I slipped out of camp and, walking about 200 yards toward the log jam, found fresh lion tracks where a huge animal, which had been scouting the camp, had crossed the river. Going back to camp, I got one of the dogs and put him on the tracks. Within twenty minutes the dog caught up with the lion and freed him. I was coming down the mountain when I heard the dog baying, and in my haste, sliding and running, I made a great deal of noise and heard the dog start up the canyon.

PURSUE BIG LION

The lion, hearing my approach, had leaped from tree to tree and fled up the canyon. We pursued for a mile, when the dog drove the lion into another tree, as I saw the dog hunting from one tree to another and thought the lion was crawling and leaping from one branch to another tree. I stood watching the dog and finally he came running to the tree under which I stood and, glancing up, I saw the lion stretched out on a branch right over my head, glaring down at me. He was so close I could have punched him with the muzzle of my gun, and his eyes looked as big as saucers, while his tail was waving back and forth slowly as he crouched as if to jump.

I beat him to the jump. Leaping backward I threw up the gun and fired at his eye, snarling and squirming, he fell from the tree right onto the spot where I had been standing an instant earlier. Before he hit the ground, the dog tore into him and started shaking him, but it was unnecessary. He was dead.

A GREAT KILL

The hunting was beyond belief. In one morning three of us went out and, within an hour, we had killed five bucks. We killed twenty-eight bucks during the stay, and we could have killed a hundred had we desired. We did not let any of the lion and his pack trail, but we brought him and his pack back to camp. We weighed sixty-two pounds and was the biggest lion I ever saw.

One remarkable accident happened on the trip going into camp. One of our pack horses slipped while going along a narrow ledge over which the trail led, fell, rolled over, and, falling twice, came back with five on its back on the ground, with such force that it burst both teinches of the pack saddle. The horse had fallen onto a grassy ledge and got right up and started eating, as if nothing had happened.

We were all excited, and wondering how we could get the lion and his pack to the trail, when the lion added to the excitement by yelling:

"Gee whiz! That pack has all our liquor and beer in it. Get my pack to have that one fall off the trail."

We climbed down and opened the pack, and not a single bottle was broken. The beer had been covered with half a dozen blankets, but even with that protection it is impossible to understand why nothing broke. We had to lower ropes, and by pulling and pushing we got the horse back to the trail—but Joe refused to go any further until we changed packs and put the mattresses on that horse and the beer on another. He refused to take another chance on a miracle happening.

BREAK CAMP
We remained in that camp six weeks before we commenced to tire of the life and decided to break up. The night before we broke camp, we staged a bit of stampede for the benefit of Dick Adams. Dick had been the camp cutup. He refused to go hunting or to shoot a gun, but remained in camp eating the game we brought in and joking with us about our hard hikes and climbs.

His tent was right beside the big camp fire in the trench, and everyone got on the opposite side of the fire while I loosened the ropes of Dick's tent. Then we brought up all the pack horses, stampeded them over him, tent, which I jerked down over him, while everyone ran over him and yelled, "Whoa, Billy! Whoa, Pete!" Dick came out from under the tent with a wild man, jumped over and through that fire in his pyjamas and was starting for Portland when he ran into the entire crowd, waiting to welcome him.

We started at daylight and it took us three days to break out of camp, although we gave everything but our

IN GREAT SHAPE

On the return trip to Eugene, a long night drive along Blue River, the driver dumped the whole party down an embankment without hurting one of us, and we reached Eugene just eight weeks after our start into the wilderness.

It seemed good to return to civilization. I was in such magnificent shape the promoters began clamoring for me to climb back into the ring and I laughed, telling them the rest of my life was to be devoted to battling bears.

(To be Continued)

BILLIARDS

Without a defeat on their slate, Veterans of France culminated to lead the "A" section of the Interservice Billiard League after last week's play. Two points behind them stand the Britannia Post with five victories and two defeats to their credit, while Pro Patria hold third place with two wins and five defeats.

In the "B" class the Britannia Post leads with a one-game margin over the Veterans of France and Canadian Scottish, who are in a tie for second place.

Complete standings and results of recent games are as follows:

The winners of the second and third places play a series of two out of three games and the survivors then take on the league winner in a two out of three series.

If the Rangers and Americans are first in their divisions it was decided the first series will start Sunday, March 17. Otherwise the date will be determined at the next meeting, March 4.

Will Ask For Racing Board

Delegation to Wait Upon Government to Seek Commission of Control

Formation of a provincial racing commission will be sought from the Government by the B.C. Thoroughbred Breeders and Horsemen's Association, it was unanimously decided at the last meeting of the association. A delegation will approach the Premier in the near future, it is understood.

The delegation hopes to lay before the Premier facts and figures to prove that a racing commission is the only means of bringing high-class horse racing in this Province.

A commission created in this Province would be of inestimable value to all interested in racing, whether promoters, owners of horses, breeders or bettors, the association claims, and its object would be to function for the benefit of all parties, particularly to promoters and to those who raise and race horses. A board composed of men who know every angle of the game, men of ability, who would be capable and fearless in meeting out justice and punishment where it was due, would be fully endorsed by everyone interested in the sport, the association states.

Some breeders and horsemen have been compelled to hold their peace for a number of years against what has been considered unjust restrictions upon them, it is claimed.

BUICKS TAKE SECOND PLACE

Davies' Defeat the National Motors Hockey Squad 4-0

In a game replete with thrills, Davies handed the National Motors a 4 to 0 lacing last night. By doing so they jumped into second place in the Victoria, Garage, Hockey League, one point ahead of Humphries Motors. Pimley's, with fourteen points, are assured of being in the playoffs so that second place and the right to play with Pimley's will be closely contested between Davies and Humphries. There are three more regular games for each team in the schedule.

SCORING MATCH

The game started out at a fast clip and Davies' first goal came in the first period when Smith, Davies' flashy right-winger, sent in a hot shot from the blue line which Walker, National goalie, was unable to save. The second period went scoreless but there were several penalties for rough play. Cy Paxton, who refereed, was right on his whistle all the time.

Davies opened up in the third period and went scoring mad. Smith secured his second counter on another solo rush and his drive was right on the mark. Gordon, leading scorer in the league, then scored on a bit of nice stickhandling in which he beat the National defence. Irving, substitute right-winger for Davies, got the last counter on an assist from Gordon just before the period ended.

The "Fords" tried many times to score but the backchecking of Davies' forwards was flawless. Gamon, Heil, Young, Bell, Hollander and Williams were outstanding for National Motors, while Haller, Eastman, Fletcher, Smith, Battison and Gordon starred for Davies.

The league standing at present is as follows:

Quinnettes last night smashed two more bowling records when they amassed 1,031 points in their second encounter against the Arcades and over-topped previous marks for aggregate match scores by rolling 3,013 points in the three games, all of which

Births, Marriages, Deaths

BORN
Aitken—On Feb. 4, at 945 Beavertown Avenue, to Mr. and Mrs. W. A. Aitken, a daughter.

DIED
Brett—There passed away Sunday evening, after a lingering illness, at the family residence, 116 South Turner Street, George Henry Brett. The late Mr. Brett was born at Grantham, Lincolnshire, England, sixty-two years ago. He has been a resident of this city for the past thirty years. He is survived by his widow at the family residence, one sister and four brothers in England.

Funeral service will be held Wednesday afternoon, February 6, at 2:30 o'clock, from the S. J. Curry & Son Funeral Home, Rev. A. E. de Owen will officiate and interment will be made in the family plot at Ross Bay Cemetery.

WATLING—At the Royal Jubilee Hospital, on February 3, Thomas Watling of 638 Dominion Road, aged 63 years.

The funeral will take place on Wednesday afternoon at 2 o'clock from McCall's Funeral Parlors. Interment will be in Royal Oak Burial Park.

CARD OF THANKS
The family of the late Mrs. Jane Harris, also Mrs. C. James, desire to convey their heartfelt thanks to their many friends for the comforting words of sympathy and the many beautiful floral designs sent in their sorrow and bereavement. In the loss of a loving mother and sister.

OCEAN HIGHWAY ARGUMENTS ARE ADVANCED

C. L. Harrison Speaks to Saanich Trade Board on Project

Endorsement of Road Is Given; Officers Elected For Year

Arguments in favor of the present proposed route of the Ocean Highway, and answers to criticisms which have been leveled at the projected road, were laid before the Saanich Board of Trade at its meeting in the Institute Hall, Brentwood, last night, by C. L. Harrison.

Some of the outstanding statements made by Mr. Harrison during his address in which he outlined the proposed route and some of the things which would have to be encountered were:

"Add your scenic value to the industrial asset and kill two birds with one stone."

"The proposed road is not a selfish scheme for the benefit of Victoria but a project for the advancement of industrial interests and tourist traffic of the whole of the island."

"While a subsidiary road to Duncan would be an excellent thing, the main highway is the outstanding need at the present time."

MUST WATCH TOURIST

"It is impossible in these days to overlook the tourist. And the tourist is interested in the big timber when in this part of the country. What finer scenic route could be selected than the proposed coastal road."

OLD PROJECT

The scheme for the building of the road went back forty years, and years ago, it had died of inaction, said Mr. Harrison. "I found it dead and put new life into it. All information to the contrary notwithstanding, the road is not a difficult project," he stated.

The needed bridge over the Nitinat River would be rather less than \$7,000 instead of the \$10,000,000 as rumored. A single span wooden bridge over a distance of eighty feet, from banks which were formed of solid rock, was all that was needed.

COURSE OF ROAD

Mr. Harrison traced the proposed course of the road, round a mountain north of Port San Juan, and through a track of fine land to Banfield Creek. "We have urged the Government to reserve a strip of timber from the Alberni Canal to Jordan River, along whatever route the road may take, and to give the thousands of acres of Government Reserve which lie north of San Juan, which are of no use for agricultural purposes, to the people of Vancouver Island," he added.

In commissioning W. O. Wallace, vice-president of the board, to represent them at the executive meeting of the Associated Boards of Trade of Vancouver Island, which will be held at Nanaimo this evening, and where the matter will be fully discussed, the Saanich Board of Trade showed evidence that it was in accord with what Mr. Harrison had said and gave Mr. Wallace full power to act for them after he had heard the other side of the question.

ELECT OFFICERS

Officers nominated for election to the board at the annual meeting in March are as follows: Hon. president, Mr. P. Butchart; president, Rev. M. W. J. Bruce; vice-president, W. O. Wallace;

secretary, J. E. Sladen; treasurer, Captain Nat Gray and E. Hardy; council, Captain Babington, W. W. Duncan, Captain Gray, E. Harding, Councillor Borden, Major Garrard, J. Thompson, Reeve Crouch, R. W. Sluggett, H. Blake and A. E. Hole.

Thousands In Europe Suffer With Influenza

Unusually Cold Weather Comes While Epidemic Is at Its Height

London, Feb. 5.—Thousands are ill in Europe to-day as a result of an epidemic of influenza from which few localities have been spared.

In France some of the most notable figures of public life are among those afflicted. In Paris, the victims include President Doumergue, Premier Poincare and two of his Ministers, M. Briand and M. Leygues. Their cases are mild. Others on the sick list are Marshal Henri Petain and Sir William G. Tyrell, British Ambassador to France. S. Parker Gilbert, Agent-General of Reparations, was better to-day after an attack of the disease.

In England, Dame Nellie Melba, famous prima donna, is recovering from the malady.

HOSPITALS FULL Hospitals in Paris are taxed to capacity with influenza patients. Berlin's public works and department stores report heavy sick lists. That is the case in London, too.

In Prague, Czechoslovakia, the epidemic was lessening to-day after striking low more than one in five. Although there have been deaths, most centres reported the mortality rate had been comparatively low.

COLD WAVE

The epidemic was accompanied to-day by a continuation of the bitterly cold weather which has gripped Europe and Asia from the Yellow Sea to the British Isles.

Some parts of Central and South-eastern Europe particularly were suffering. Several deaths were reported from the Balkans, Constantinople and South Russia. At Belgrade, Yugoslavia, the temperature reached twenty-five below zero and a passenger train which left the city Sunday for Zagreb was buried under twenty feet of snow. Another avalanche buried a rescue train, while two other trains were unroofed.

The Danube and Save Rivers were frozen over so solidly that horses and carts were crossing safely. Italy saw considerable snow and Rome recorded the lowest temperature in thirty-five years—twenty-one degrees. France had clear, sunny weather, although it was bitterly cold. Even the Riviera held no charm for its winter visitors.

DISTRICTS CUT OFF

Denmark was icebound and temperatures below freezing prevailed in the British Isles. Northern Chinese ports reported un-

St. Margaret's Girls Down High In Hoop Fracas

St. Margaret's School sextette took Victoria High School girls' basketball team into camp by a 35-23 score yesterday.

The passing of St. Margaret's girls was excellent while their shooting was of a very high standard. It was in this department of the game that they outshone the High School girls.

St. Margaret's squad held a 14-7 lead at half time and increased this steadily in the second half. Miss Miller handled the whistle in a very impartial manner.

Two Years On Cheque Charge

Andrew Simpson, Pleading Guilty Before Magistrate Jay, Sentenced To-day

Arraigned before Magistrate George Jay in Police Court this morning, Andrew Simpson, who yesterday pleaded guilty to a charge of cashing a cheque which he knew to be forged, was sentenced to two years' imprisonment. The accused received the sentence stoically. Magistrate Jay, in addressing the accused, said he considered it a very grave offence. The amount in question was small but the charge was nevertheless a most serious one as the accused deliberately attempted to pass the cheque, knowing the document to be a forgery. The magistrate also referred to a previous conviction of the accused on a charge of securing money by false pretences. "The lesson does not appear to have had the effect it should have had," said Magistrate Jay. "I have power under the Act to sentence you to life imprisonment on this charge. The sentence will be two years' imprisonment."

Simpson was arrested, following information laid by John Wood, local agent for the International Correspondence Schools. The accused had sought a correspondence course in electrical engineering and had tendered a cheque for \$150 in payment, asserting it was pay cheque from the firm of Carter, Halls-Aldinger Company Limited. The accused received \$21.50 change after arranging for the engineering course.

"Vancouver's Only Genuine Herbalists"

NEWS IN BRIEF

City school trustees will continue discussion on estimates at a meeting to be held Wednesday at 8 p.m. after an agenda of routine affairs.

Application for naturalization as British subjects were made before Judge Lampman in County Court Chambers yesterday by Elias Vital, Charles K. Bolseth and Edward Le Bus.

Colonel W. W. Foster, D.S.O., provincial president, will address the annual general meeting of the Britannia Branch, Canadian Legion, British Empire Service League, this evening. The session of officers will take place.

In the absence of any fires in the city, firefighters to-day turned to the other extreme, ice, occupation and shoveled snow in front of headquarters. One of the repair fire trucks was used in removing the blockade of slush.

As R. M. Palmer, who was scheduled to address the North Saanich Horticultural Society at its monthly meeting on Thursday evening, has found it impossible to attend the gathering on that date, the society has postponed the meeting until a later date.

To make plans for the coming summer members of the Wanderers' Cricket Club will meet in the office of Heisterman & Forman, View Street, on Thursday evening at 8 o'clock. Any other interested in cricket who are not members of the club are invited to be present.

Members of the Royal Society of St. George will hold their adjourned annual general meeting for the election of officers and to receive reports this evening in the club rooms, Campbell Building, at 8 o'clock. Matters of great importance are to be discussed, and every member is requested to attend.

The second musical evening under the auspices of the Y.M.C.A. will be held in the association's building, this evening at 8 o'clock. The program for the entertainment are Frank Partridge, tenor; Arthur Partridge, baritone; and Mrs. McLaughlin, mezzo-soprano. The public is invited to attend the function.

The Pro Patria Branch, Canadian Legion B.E.S.L. held a successful smoking concert on Saturday. The president, C. A. Gill, presided and during the evening a characteristic speech was given by Thomas Uphill, M.P. A splendid program was carried, the artists contributing being I. Burnett, A. McClements, A. Brooks, F. Baldwin, A. Dobbie, G. Snelling and W. J. Collett. Through the kindness of W. H. Hanson, Raymond "Toby" Leitch and his company from the Coliseum, delighted the gathering with several interesting turns.

A very well attended and interesting meeting of Queen Alexandra Review, No. 1, W.B.A., was held in the hall on Monday evening, February 4, President Mrs. Hieche presiding. Mrs. Lora Baker attended and installed the officers for 1929. She also spoke to the review. The program consisted of the following: Mrs. Hieche, telling the members of the coming visit, in May, of Supreme Medical Examiner Mrs. Dr. Reynolds, who will visit with No. 4. The following officers were installed: Mrs. Hieche, vice-president; Mrs. Veitch, president; Mrs. Keith Jr., supervisor; Miss Clough, financial secretary; Mrs. McAllister, treasurer; Mrs. Craighead, lady of ceremony; Mrs. Hieche, sergeant; Mrs. Edmonds, chaplain; Mrs. Charles, press correspondent; Mrs. Walker, inner hostess; Mrs. McIntyre, outer hostess; Mrs. Laid, recording secretary; Mrs. Minnie, officer of the day; Mrs. Adams; Miss Canada; Miss Minnie; Miss W.B.A.; Miss McIntyre; musician; Miss Hieche, color bearer; No. 1, Mrs. Gardner; color bearer; No. 2, Mrs. Trowdale; ensign; No. 1, Mrs. Plicher; ensign; No. 2, Miss Reid. Mrs. Baker then was presented with a small gift accompanied with a bouquet of flowers. Mrs. Scimela received the past president's pin and bouquet. Mrs. Riche, flowers; Mrs. Laing, flowers; and Mrs. Harrison, flowers. Mrs. Morase and Mrs. Walker were also remembered with gifts from the review, for their service in the past year. The next meeting of Queen Alexandra Review, No. 1, will take place on Monday, February 18, at 7:30 o'clock, after which a dance will be held at 8:30.

QUERY PHILIP ON CONTRACTS

Lowest Tender Not Always Best, Accounts Committee Told

Contracts and the method of awarding them were briefly discussed at a meeting of the Public Accounts Committee of the B.C. Legislature this morning.

Petrick Philip, Deputy Minister of Public Works, was asked by the chairman, G. A. Walker, Vancouver, if it were not the policy of the department to let contracts to the lowest tender. Mr. Philip replied that this was the custom followed in most cases. Occasionally, a case arose where it was deemed inadvisable to do so as the assurance that the lowest tender could efficiently perform the work was not always sound enough for him to be awarded the contract.

Exceptions were occasionally made in the case of schools, he said. Where there was a small margin between that of a local contractor and a contractor from an outside point, the local contractor was often given the job. In these cases consideration was given to the fact that the districts in which the school was to be built were contributing to the cost.

Overdue and overdrawn loans from the Public Works Department were questioned and Mr. Philip replied that this could not happen at the present time.

Right to Name Under Question In Insurance Bill

Although the application of the Royal Plate Glass Insurance Company for a private bill to increase its capital from \$100,000 to \$200,000 was approved in principle, the private bills committee of the House to-day postponed its decision until the argument of solicitors for the Royal Insurance Company that the name constituted an infringement can be heard on Wednesday.

The bill empowers the applicant to engage in all kinds of insurance except life and marine and changes the company's name to Royal Plate Glass and Fire Insurance Company.

Esquimalt to Seek Larger Money Grant

Committee to Approach Minister of Education For Increase in Schools Grant

Will Also Request Minister of Public Works to Make Roads Primary Highways

As a large percentage of pupils attending Esquimalt schools come from government properties on which there is no tax, a committee composed of Councillors A. Lockley, William Cox and Reeve J. Erick, was delegated to approach the Minister of Education to secure a larger grant for educational purposes in the municipality at the meeting of the Esquimalt Council last night.

In deciding to send this delegation to the Minister, the council took into consideration the expense incurred by furnishing school training to children from the naval and militia barracks in that municipality.

NEW GARAGE TRUCK

The necessity of securing a new garage truck for the municipality was considered by the public works committee and referred to the same committee to secure data on the price of obtaining a suitable machine.

The council, when considering the question, was of the opinion that a truck could be purchased for the sum of \$2,500. The committee, however, the members of the committee were delegated to collect tenders for the filling of the order and to report back to the council at its next meeting.

WANT PRIMARY HIGHWAYS

The committee was also authorized to approach the Minister of Public Works to see if the government would make Craigflower and Admirals Roads into primary or secondary highways.

While discussing this proposition, it was mentioned that the municipality was required to keep these roads in repair although in many parts there were no sidewalks. The expense of keeping up these highways and their proportionate lack of municipal traffic was considered an unfair burden to place on the municipality's shoulders, and the committee consequently thought their request quite in order. The committee will report progress at the coming meeting of the council.

MAY HAVE ROLLER RINK

The public works committee, at the suggestions of the Reeve, also considered the advisability of cementing the tennis courts in Memorial Park. The Reeve reminded the body that the courts had been too soft for use last year, and would probably be in a similar condition this season. If cement courts were used, they could be used all year round. Reeve Erick stated, saying that if the weather was not conducive to tennis playing, the concrete courts could always be converted into roller skating rinks. "The matter was handed over to the parks committee for consideration."

PREMIER RECEIVES BIG RECEPTION ON RETURN TO HOUSE

An enthusiastic reception to Premier Tolmie on his return to the Legislature after his sickness was accorded him as he rose to speak yesterday. Before the business of the day got under way, T. D. Pattullo, leader of the Opposition, said he wished to express the pleasure and gratification of his side of the House on the return of the Premier. It was his hope that he would be spared for many years of usefulness for this Province to serve it with health and vigor. Premier Tolmie expressed thanks for the cordial reception and greetings and said he hoped that no matter what differences they might have on the floor of the House, they would always retain their personal friendship. The gallery was crowded while the Premier spoke.

busy with final preparations with an eye to entertaining a record number of people.

Al Prescott, whose "Capitolians" will provide music for the dances, has arranged a wonderful programme of the latest dance music, including many novelties. The arrangements for supper and refreshments will be up to the high standard usual at these functions and patrons are assured of a delightful evening.

Clubmen Hear Council's Aim

Major Ney Addresses the Kiwanians on Work of National Council of Education

Members of "Dumbbells" Entertain Clubmen With Song Hits

To keep Canada in touch with the outside world in order to prevent harmful isolation and to give the land a sympathetic understanding of the views of other nations were two of the aims of the National Council of Education, stated Major F. J. Ney, organizing secretary of the council, during his address at the Kiwanis Club luncheon in the Empress Hotel to-day.

Major Ney gave a brief summary of the organization of the council stating that it had its genesis in 1919 when 1,500 people from various parts of the world attended the conference in Winnipeg.

In 1923 the council met in Toronto. That year the main theme of the conference was education and its relation to life. Three years later the group met in Montreal where proposals to promote a better understanding between the French-speaking and English inhabitants of this land were undertaken.

MANY TOPICS

In the conference here and in Vancouver which will commence on April 5, Major Ney stated that such subjects as literature, music and the drama, the cinema, radio and health would be topics of discussion. He said that the new nations at this gathering, while Japan, India, Germany, Italy, Czechoslovakia, Great Britain and France will also send delegates.

A feature of this conference will be addresses by Rabindranath Tagore, the famous Indian poet and philosopher. A physical education will also occupy a major part in the programme, Major Ney added.

At the conclusion of the programme Capt. Plunkett, A. Plunkett and Morley Plunkett, assisted by Cameron Geddes, Harry Ross, Louie Brewer, and the Kiwanians, entertained the members with popular songs from their new presentation, "Why Worry."

The funeral of Lee On, who died at his home, 262 North Park Street, last Friday, took place yesterday afternoon from the Sands Funeral Chapel, and the remains were laid to rest in the Chinese Cemetery.

The death took place Sunday evening at the Royal Jubilee Hospital, of Thomas Lawson, aged sixty-three years, of New Westminster, B.C. The late Mr. Lawson was born in Hamilton, Ont., and had resided in the Province for six years. He is mourned by his widow and an infant son, also his father and mother, Mr. and Mrs. Lewis Hicks, and three brothers, and two sisters, all of Denver, Alberta. The remains are resting at McCall Bros. Funeral Home. Announcement of funeral will be made later.

The funeral of the late Thomas Watson will take place on Wednesday afternoon at 2 o'clock from McCall Bros. Funeral Home. Interment will be made in Royal Oak Burial Park.

Private funeral service was held this morning in the chapel of B.C. Funeral Company over the remains of Miss Ella Mae Wylie, Rev. Mr. Stewart officiating. Following the brief but impressive service, the remains were taken to rest in the Royal Oak Burial Park. The pallbearers were Dr. Hugh Clark, F. V. Rendell, R. S. Clark, and H. P. Bell.

There passed away in the city yesterday after a brief illness, Walter Easton. The late Mr. Easton was born sixty-nine years ago in Scotland and had been a resident of this city for the last ten years. He leaves to mourn his loss two sisters, Mrs. K. J. Sworner in England, and Miss J. Easton at Cobble Hill and one brother, William Easton, in South Wales. The remains are resting at the B.C. Funeral Parlor from where the funeral will take place on Thursday afternoon at 2 o'clock.

The death occurred yesterday of Richard Holmes of Richardson Street, a resident of Victoria for the last twenty-eight years. He was born seventy-six years ago at Clough, Shropshire, Ireland, eldest son of the late Joseph Arthur Holmes, deputy lieutenant and J.P. for County Roscommon. He leaves

RESCUERS TELL OF RUSH TO SAVE DROWNING YOUTH

Coroner's Jury Finds Herbert Cliff Death in Elk Lake Accidental

After Chief Rankin of the Saanich police and other witnesses told Coroner E. C. Hart details of the drowning of Herbert Cliff in Elk Lake Sunday, the jury hearing the evidence at S. J. Curry & Son Funeral Parlor this morning brought in a verdict of accidental death.

Nelson Allan told how he and Cliff, who were friends, met at the lake Sunday and skated out towards the centre. Before they knew it, he said, they were out on thin ice, and both of them went through into the cold water. Cliff did not come up.

George Mowat and James White, told of rushing to the rescue and of their efforts to save Cliff. They said the ice was only a couple of inches thick around the break so they rushed a rowboat out from the shore over the ice and in that started to hunt for Cliff.

PART REVIVING

"We broke the ice around and finally down in the water we saw a white object, and we thought it must be him as he was wearing a white sweater," Mr. Mowat said. "We got a wire and with a long stick, brought him to the surface. He was perfectly blue, as he had been in the water for three-quarters of an hour, and was absolutely past reviving. The water was about twenty feet deep where we got him."

Chief Rankin said there were no notices up around the lake, but through the newspapers and by giving personal warnings, he had tried to keep people on the firm ice within 100 yards of the shore. He suggested that notices should be put up.

Coroner Hart said almost every day there were similar skating disasters, and it was quite a question as to how they could be prevented.

Costly Tramps Worry Cities

Province Should Stand Cost, Municipalities' Union Claims

Grand Forks Has as Many as Hundred in a Day; Surrey Claims Thirty

Cost to municipalities of prisoners in provincial jails formed the subject of discussion by representatives of B.C. municipalities appearing before the Municipal Committee of the B.C. Legislature this morning with a recommendation of the Union of B.C. Municipalities that the cost should be borne by the Province. The recommendation will go before the Attorney-General and then come before the committee again.

Arguing that the charge of \$1 a day was unfair and should be repealed, Alderman H. E. Bridgman pointed out that in the case of Surrey and Coquitlam, which were jumping off places for tramps, they were taxed with the cost of prisoners for whom they should have no responsibility. Nanaimo had also been under a big expense as the result of the bank robbery and a narcotic case.

PLENTY OF TRAMPS

Clerk Farmer of Surrey said that in his municipality they sometimes got as many as thirty tramps in a day. A sentence of only a few days was meted out to them because of the expense of maintaining them. The present method tended to defeat the purpose of justice, as a magistrate, a local man, was inclined to collect a fine where it was possible or in the event of a fine being impossible to impose a light sentence to save the burden on the municipality, which in the case of Surrey would be unbearable if heavy sentences were given tramps. Mr. Farmer said.

Mayor A. L. Le of Grand Forks said the cost of tramps was considerable in his district. While Surrey complained of thirty, they sometimes had as many as 100 in one day.

OBITUARY

The funeral of Lee On, who died at his home, 262 North Park Street, last Friday, took place yesterday afternoon from the Sands Funeral Chapel, and the remains were laid to rest in the Chinese Cemetery.

The death took place Sunday evening at the Royal Jubilee Hospital, of Thomas Lawson, aged sixty-three years, of New Westminster, B.C. The late Mr. Lawson was born in Hamilton, Ont., and had resided in the Province for six years. He is mourned by his widow and an infant son, also his father and mother, Mr. and Mrs. Lewis Hicks, and three brothers, and two sisters, all of Denver, Alberta. The remains are resting at McCall Bros. Funeral Home. Announcement of funeral will be made later.

The funeral of the late Thomas Watson will take place on Wednesday afternoon at 2 o'clock from McCall Bros. Funeral Home. Interment will be made in Royal Oak Burial Park.

Private funeral service was held this morning in the chapel of B.C. Funeral Company over the remains of Miss Ella Mae Wylie, Rev. Mr. Stewart officiating. Following the brief but impressive service, the remains were taken to rest in the Royal Oak Burial Park. The pallbearers were Dr. Hugh Clark, F. V. Rendell, R. S. Clark, and H. P. Bell.

There passed away in the city yesterday after a brief illness, Walter Easton. The late Mr. Easton was born sixty-nine years ago in Scotland and had been a resident of this city for the last ten years. He leaves to mourn his loss two sisters, Mrs. K. J. Sworner in England, and Miss J. Easton at Cobble Hill and one brother, William Easton, in South Wales. The remains are resting at the B.C. Funeral Parlor from where the funeral will take place on Thursday afternoon at 2 o'clock.

The death occurred yesterday of Richard Holmes of Richardson Street, a resident of Victoria for the last twenty-eight years. He was born seventy-six years ago at Clough, Shropshire, Ireland, eldest son of the late Joseph Arthur Holmes, deputy lieutenant and J.P. for County Roscommon. He leaves

Your Own Music Is Best!

EVERY time a radio orchestra plays the "Blue Danube," a violinist plays "Souvenir," a vocalist sings "Ave Maria," a cellist plays the "Melody in F," you thrill to glorious music that you can play or sing for yourself with even greater pleasure. The music you create yourself is the music you love the best!... Our sheet music and Victor Record departments cover the entire range of music from the simplest ballad to the most renowned opus of Beethoven. In these two departments we can fill your every musical requirement.

remains were laid to rest in the Royal Oak Burial Park.

Funeral service will be held Wednesday afternoon at 2:30 o'clock from the S. J. Curry & Son Funeral Home over the late George Henry Brett of 116 South Turner Street. Rev. A. E. De B. Owen will officiate, and interment will be made in the family plot at Rose Bay Cemetery. The late Mr. Brett was born at Grantham, Lincolnshire, England, sixty-two years ago. He has been a resident of this city for the last thirty years. He is survived by his widow at the family residence, one sister and four brothers in England.

There passed away on Monday evening at the Royal Jubilee Hospital, of Stanley Hicks, aged thirty-three years, of New Westminster, B.C. The late Mr. Hicks was born in Hamilton, Ont., and had resided in the Province for six years. He is mourned by his widow and an infant son, also his father and mother, Mr. and Mrs. Lewis Hicks, and three brothers, and two sisters, all of Denver, Alberta. The remains are resting at McCall Bros. Funeral Home. Announcement of funeral will be made later.

STOCK MARKETS — FINANCIAL NEWS — GRAIN MARKETS

TO-DAY'S GRAIN MARKETS

(By Branson, Brown & Co. Ltd.)

Winnipeg, Feb. 5.—Wheat: While offerings were quite liberal at top levels today the market received splendid support and wheat prices were mostly 1/2 to 1/4 higher than the previous close. There was no prominent buying at any time, but it was persistent in small volume. At the start prices advanced 1/2 to 3/4, the October future showing the greatest strength with buying orders drifting in from New York for the new crop future.

Both May and October went to an even basis at \$1.30. This is an unusual occurrence, October at this time of the year being generally from 5 to 7 cents under the May. One prominent export house bought moderately of May at 100,000 bushels, but otherwise there was little doing by exporters or seaboard houses. There was considerable spreading in evidence, buying Winnipeg May and July against sales in Chicago at the board differentials.

The pool were again the best sellers, while the country trade and commission houses appeared to be both sides of the market. The local pit trades are quite bullish and have taken on considerable weight the past two or three days, and are now awaiting something to turn up in the way of unfavorable crop news to force prices higher. The local cash market was again dull.

Shippers were after a little number 3 against sales made at seaboard, but otherwise the demand was weak. Weather more favorable over winter wheat belt, but Europe is now in the grip of a cold spell, which is being used as a bull factor. Our market developed near the continued weakness in Chicago putting Winnipeg down.

Coarse grains: These markets continued extremely dull nothing doing and export business entirely lacking. The final weakness in wheat brought in some scattered liquidation, but otherwise there was not much pressure. Flax—This market continues featureless.

**Saves time because it's ready-baked.
Warm in oven and serve with hot milk.
Healthful protection for the whole family.**
Made by The Canadian Shredded Wheat Company, Ltd.

By DAVID LYALL

Mary had a curious feeling of her age and maturity beside her mother that night. She could not imagine herself behaving so childishly no matter what happened. She tucked her up, bade her goodnight and begged her not to worry and went downstairs again. The evening wore on. Mr. Freedland came in from his late inspection of the mill, which never failed. He was not talkative, however, and after they had each had a half an hour the girls

"You're the right sort, they haven't died out yet, Deborah. No, I've had no setback. I almost wish I had. There's something wrong with the

CHAPTER XII

"Hullo, Dad; thought everybody would have been in bed," he said, trying to speak lightly. "Hope you didn't wait up for me. It isn't so very late after all; only ten to eleven. Half a mo, till I pull off my overalls."

"Buster," said Uncle Wiggily, and he did not smile or twinkle his pink nose, "did you break your drum?"

"Oh, no, Daddicums!" answered the little rabbit. "I didn't! I put it away carefully last night, after the party, and now look at it—Boo! Boo! Hoo! Boo!" Buster cried backward and forward.

"Are you sure you didn't put your

"Fruit-a-tives" Stopped Pain and Terrible Dizziness

The strikers have organized an extensive picketing system and these pickets have turned back from their properties many owner-drivers who were conveying timber from the mills. The building trades are seriously affected by the stoppage of supplies. The trouble arose over the reduction of working hours from forty-eight to forty-four a week, with a corresponding decrease in wages.

General Lee concluded to make Spec stay at home. So, one Sunday, he was put in an upstairs room, and the family started off to church without him.

Spec was confined in a front room. As the weather was warm, the windows were open. The little dog was quiet awhile. But he could not bear to be left alone, so he made an eighteen-foot jump to the ground and joined the family as though nothing had happened.

THE TINYMITES

STORY BY HAL COCHRAN—PICTURES BY KNUCK

READ THE STORY, THEN COLOR THE PICTURE

The bear that came out from the trees just wobbled round a while with ease. It looked real clumsy with its body swinging to and fro. Each Trouble Tot and Tinymite kept very quiet, out of sight. Just what was going to happen next of course they did not know.

Soon Clowny whispered, "Seems to me that he's as tame as he can be. Let's run right out and play with him. Perhaps he'll be real kind." Just then however, Mister Bear began to jump and roll and tear. And when he roared aloud it made poor Clowny change his mind.

"Oh, no!" he whispered. "Don't run out. I really haven't any doubt that we would all be chewed right up. We're safer where we are. No doubt the bear will go 'way, and if he does I hope he'll stay. Whatever place he's heading for I hope it's good and far."

By this time Scouty got a hunch, which he explained to all the bunch. "I have a rope which we can throw across the ground," said he. The Clowny said, "All right, you stay right here and I'll skip 'cross the way. When I'm behind that big oak tree, you throw the rope to me."

When Mister Bear was turned around wee Clowny sneaked across the ground, and hid behind the monstrous tree across from Scouty's stand. Then Scouty shouted, "Here I go. Be ready now 'cause I will throw the rope right through the air and you can catch it in your hand."

The rope then sailed across the ground and Clowny caught it safe and sound. Just then the bear began to run. He headed toward the rope. In just a moment he fell flat and Scouty shouted, "Look at that! We've tripped him, and if we are quick we'll him tight, I hope."

To-morrow's Hotoscope

WEDNESDAY, FEBRUARY 6, 1929

Adverse planetary influences are strong to-day, according to astrology, which reads:

In the horoscope forbidding aspects for the earth. Under this direction of the stars the mind may take on a gloomy or pessimistic point of view which should be overcome by determined will. The way may have a tendency to obstruct endeavor whether it is physical or mental. Delays and handicaps may be numerous in the day's work. Women who are at times peculiarly sen-

sitive to the rule of the stars should cultivate patience and patience under this rule which makes for irritability and fault-finding. Post-war excesses of every sort will be old-fashioned and less likely to be accepted than formerly. It is foretold. The temptation to practice small deceits and to tell what is not exactly true may be strong and should be firmly ignored. The general trend of the planetary gov-

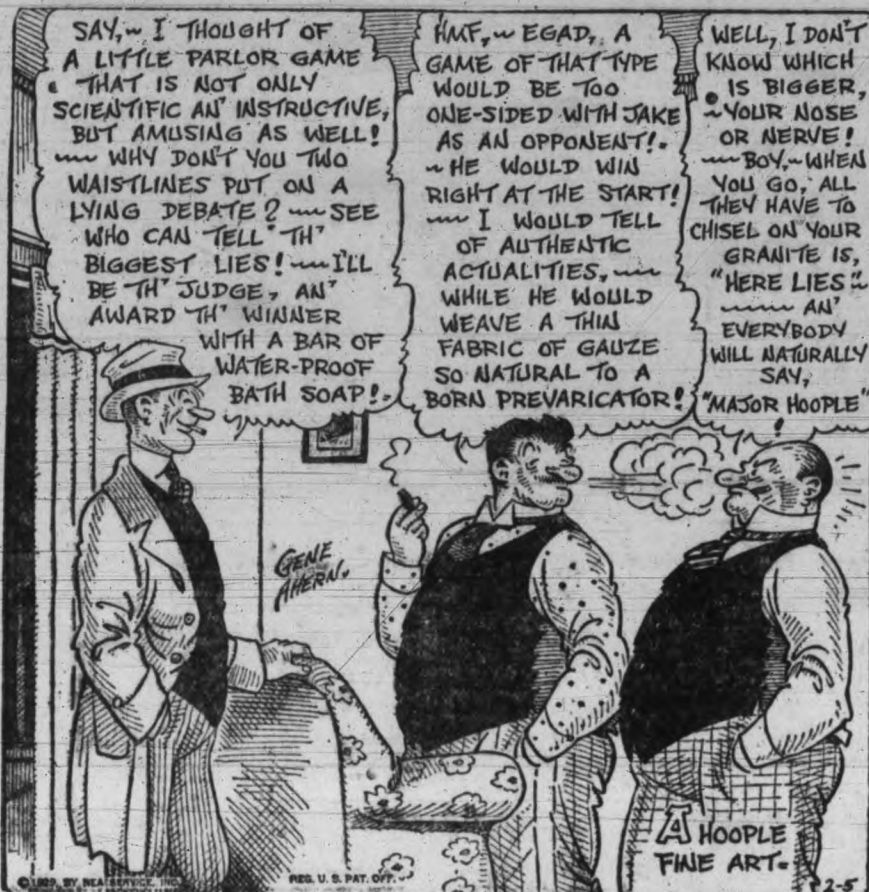

ernment should be toward better standards of life and higher planes of thought as the year advances. Women will cultivate beauty of the soul as well as the body, and will return to domestic interests, the seers prophesy. Club organizations supported by women will change in character, it is predicted, and in the new order of things will attain added prosperity.

One of the prophecies made by occultists is that finance is to attain a new interest among the young. Changes in educational institutions and especially in co-educational ones are prognosticated. Students who lead in extravagance of living are to lose caste, if the stars are rightly read. Persons whose birthdate it is may experience many changes in the coming year.

Sudden journeys and other unexpected incidents will be of importance. Children born on this day probably will be high-spirited and intense in emotions. These subjects of Aquarius may be too much inclined to travel and to seek excitement, but they are likely to be exceedingly clever and even unusually talented.

CROSSWORD PUZZLE

HORIZONTAL

- Portions of a coat collar.
- What are the treeless plains of the Argentine called?
- What mountain range is on the eastern border of Russia?
- Wine part of a seed.
- What is the name of the inner bone of the forearm?
- Indoor skating pond.
- Hoe.
- Action.
- Feline animal.
- Who is the famous miser of mythology?
- Shoemaker's tool.
- Father.
- Correlative of neither.
- To require.
- To ooze.
- Slender piece of wood.
- What is the central part of a wheel called?
- Always.
- Tiny particle.
- Part of verb to be.
- Fluid rock.
- To tear stitches.
- Heron.
- Period.
- Frozen water.
- Oxidized.
- Dark red vegetable.
- Valued.
- See case.
- Planted.

VERTICAL

- Sudden roll as of a ship.
- Melody.
- To breathe heavily.
- Large deer.
- Possessive flavor.
- Heaven.
- Mis.
- Prison.
- Alfred.
- Borrowed.
- Cover.
- Insane.
- Sun.
- To think.
- Roll of film.
- A printed sign.
- One who runs away to marry.
- Murmurs as a cat.
- Blinded.
- To react.
- In what city is the Art Museum, Louvre?
- In what city in the Netherlands is the seat of the court?
- Dark red vegetable.
- Valued.
- See case.
- Laundry for washing ore.

THE LAUGH LINE

Call the Manager: Customer: Are you sure that this is good perfume?
Sales Girl (recently transferred from book department): Oh yes, madame. Why, it's one of our best smellers.

Left Him Stranded: Policeman—How did the accident happen?
Motorist—My wife fell asleep in the back seat.

Youth of To-day: Friendly Visitor—And who killed "Cock Robin"?
Young Hopeful—Search me, lady—look in The Evening Blah.

A Fast Thinker: "Lend me ten dollars, I have left my purse at home."
"Here's a dime, take the street car and go and fetch it."
